Performance
worthy
of the journey
that got you here.

WHY SASHCO'S CAPTURE AND CASCADE SYSTEM?

- **Highly elastic:** Won't crack and peel; protects the wood underneath to prevent moisture infiltration, UV damage, and frequent re-staining (ugh)
- **Highlights wood's natural beauty:** You chose wood to showcase it, not hide it
- **Easy clear coat maintenance:** Keep your home looking like you just did it. No need to remove the Capture log stain for maintenance. Simply reapply the Cascade clear top coat where needed, when needed, and move on
- **Water cleanup:** No smelly mineral spirits required – nose friendly
- **15 popular colors:** Choose one of the “out of the bucket” colors or layer different colors for a shade unique to you

Capture Log Stain brings your logs to life as it enhances the unique character of the wood grain.

EXCELLENT *Elasticity*

Cured Capture Log Stain Disc - flexible & elastic!

Logs are in constant, dynamic motion. Capture Log Stain's unmatched elasticity absorbs movement like a pro, protecting your dream home from moisture, insects, and rot. Don't settle for lesser stains that crack under the pressure.

PROVEN *Durability*

Covered

Exposed to
the elements
for 18 mos.
