

SGF-G9

INSTALLATION INSTRUCTIONS

1. Remove old filter cartridge by grasping and turning to the left about 1/2 turn
2. Fill the replacement filter with water from the tap to allow for better flow immediately after installation
3. Place the top of the new cartridge up inside the cartridge holder
4. Slowly turn the filter until the filter cartridge stops
5. Do not over tighten
6. As you turn the cartridge it will automatically raise itself into position. The cartridge will move about 1/2 turn
7. Run water from the dispenser for 3 min. (about 1-1/2 gallons) to clear the system and prevent sputtering
8. Press and hold reset water filter button if your fridge has one
