

# Flex Duct Cutter & Shears

**Malco®**

**Work. Perform. Outlast.**  
Limited Lifetime Warranty

## Flex Duct Cutter

**FDC1**

Wire Cutter

Built-in wire cutter lets you finish the job you started with just one tool! Double-edged blade cleanly pierces through outer skin and insulation. Cuts from either direction around entire circumference of duct. Fine honed blade is long lasting stainless steel. Wire cutter cuts hardened wire rib coil. Compound leverage, for easy wire cutting. Comfortable, non-slip vinyl gripped handles.

## Flex Duct Shear

**FDC2**

Thumb operated latch

**Smooth scissor action!**

Thumb operated latch ensures sharpened blade edges on the FDC2 stay closed when not in use.

Cuts insulated flexible round duct and also cuts the duct liner's wire rib coil. Pointed bottom blade easily pierces duct to start cut. Heavy duty wire cutter is located away from scissor blades. Thumb operated latch ensures that sharpened blade edges stay closed when not in use.

**FDSH**

## Universal Flex Duct Knife Sheath

High Density Polyethylene insert prevents knife tip from puncturing through nylon.

- 2-3/4 in. (70 mm) Wide Belt Loop
- Velcro Safety Strap
- Easily fits DK6S Malco Duct Knife and Duct Tools FDC1, FDC2 and FDC3

## Multi-Purpose Shear

The versatile FDC3 Flex Duct Tool is actually three tools in one! The finely honed double-edged knife blade cleanly pierces through the outer skin, insulation and liner construction of flexible round duct and cuts in either direction. A thumb-operated latch opens the tool's compound-leverage handles and the jaws of a built-in wire cutter to easily sever the exposed wire rib coil of duct liner. Use the tool's tie-tensioning mechanism to install a nylon tie strap and secure the flex duct take-off collar. With the handles of the FDC3 in the open position, a nylon tie can be threaded through the mechanism and then tightened by gently pumping the tool's handles. Use the wire cutter to trim excess tie strap tail. Trimming and installing flexible round duct is now as easy as one-two-three with Malco's FDC3 multi-purpose Flex Duct Tool.
