THE TECH

THE GEARS AND GUTS THAT GET IT GOING

In a world of rapidly changing technology, keeping up with the latest trends is hard, but doing so only takes you as far as someone else has already gone. At NEBO, we like to explore uncharted territories. That's the trailblazer mind-set. What makes NEBO better? What makes NEBO different? The answers can be found in our technology, where instead of just asking why, we ask "why not?"

C·O·B (CHIPS ON BOARD)

Uses smaller, easier-clustered LED chips that mount directly to the circuit board to work together as one lighting module, outperforming traditional lighting by up to 50 times per centimeter of light surface.

ARCUS™

A new, proprietary C·O·B LED technology that allows the shaping of light into full 3D patterns, giving optimal, bright, uniform light exactly where it's needed.

OPTIMIZED C·O·B

Provides industry-leading brightness and zoom capability in spot mode, and a perfectly dispersed flood light beam with our integrated OC Technology.

SMART POWER CONTROL™ (SPC)

Creates a seamless transition through light modes to extend battery life and allow your eyes to adjust more easily.

SMART TEMPERATURE CONTROL™ (STC)

Utilizes advanced circuitry to actively regulate light output and monitor temperature to preserve battery life and ensure safe, reliable operation.

FLEX-POWER™ TECHNOLOGY

Provides power and operation with the use of either rechargeable batteries or disposable alkaline batteries.

L·E·P (LASER EXCITED PHOSPHOR)

Generates a stable, more visible light beam that can project over incredible distances.

OPTIMIZED POWER CURVE™

Efficiently utilizes battery power to provide a steadier, more consistent light beam over extended periods of use.

OC™ (OPTIMIZED CLARITY) TECHNOLOGY

Creates a perfectly dispersed beam of intense, pristine light that is as bright on the edge as it is in the center when used in flood mode.

EASY TOUCH

Simple and intuitive push button operation quickly cycles through multiple light modes.

MAGNETIC MODE SELECT DIAL

Easy-to-use twist dial allows you to quickly and easily select the light mode of your choice.

POWER MEMORY RECALL

Quickly accesses your preferred light setting, so you don't have to cycle through the light modes.

OMNI™ AXIS 2K

LIGHT MODES
- White C·O·B High (2,000 lumens) - 5.5 hours / 76 meters
- White C·O·B Medium (1,000 lumens) - 9 hours / 54 meters
- White C·O·B Low (200 lumens) - 20 hours / 24 meters
- Red C·O·B (25 lumens) - 18 hours / 8 meters

DESIGN
- Hybrid Power (USB-C rechargeable or wired)
- 9,000mAh power bank
- WorkOn™ (Continuous use & pass-through charging)
- Smart Power Control™ (SPC)
- Direct-to-Red
- Dual-axis C·O·B panel (360° rotation & 180° tilt)
- Magnetic, folding kickstand base
- Integrated cable storage
- Durable, ABS construction
- Water (IPX4) and impact-resistant
- LED power, battery & charging indicator

OPERATION
- Rear-positioned ON/OFF button

ACCESSORIES
- USB-A to USB-C charging cable

BATTERIES
- Powered by internal Li-Ion rechargeable battery (2x21700, 3.7V, 9,000mAh, 33.3Wh) (Recharge time: 3 hours @ 15W, 4 hours @ 10W)
