

VACUUM PUMPS

MalcoEdge™ vacuum pumps are built to deliver fast, dependable evacuation performance wherever the job takes you. Designed for A1, A2L and A3 refrigerant systems, these pumps combine portability, efficiency, and reliability to help Trade Pros achieve fast evacuation with confidence.

COLT2

COLT VACUUM PUMP

True Portability – Without the Cord

- Cordless 18-20V Operation
– No Power Outlet Needed
- Lightweight Design
– Only 6.8 lbs. (Tool Only)
- 2.0 CFM Brushless DC Motor
- Rated to achieve down to 30 micron vacuum
- Power-Loss Solenoid Valve Maintains Vacuum
- Anti-Oil Return & Anti-Oil Demister Design
- Ballast Valve for Faster Evacuation
- Easy-Access Oil Drain & Sight Glass
- Battery not included:
Works with 5-amp Makita (with existing pump connection) or Milwaukee, DeWalt, & Bosch (with adaptors).

ELITE FLOW VACUUM PUMP MODELS

EF53

Motor: ¼ HP
CFM: 1.5
Weight: 9.9 lbs.

Motor: ½ HP
CFM: 5
Weight: 24.2 lbs.

Corded Power for Maximum Evacuation Performance

- Rated for evacuating systems with A2L's and A3's common refrigerants
- Spark-proof power switch
- Hard wired 16.4ft (5m) cord
- Power-Loss Solenoid Valve Maintains Vacuum
- Rated to achieve down to 15 micron vacuum level
- Rated for evacuating systems that will be charged with A2Ls, A3s, and other common refrigerants.
- Easy access oil drain and sight glass
- 1/4" and 3/8" SAE connections

MALCOEDGE™ VACUUM PUMP OIL

Protect Pump Performance. Maintain Deep Vacuum.

- Optimized for Deep Vacuum Performance
- Helps Maintain Low Micron Levels
- Supports Long Pump Life
