

RG11/6 Compression Crimp Tool

Description

This rugged tool is designed for the CATV installation contractor. Patented rotating connector positioner allows for quick change between RG11/7 and RG59/6 with no adjustments required. Crimp height is fixed for PPC's EX-XLWS Aquatight connector, EX-XL and most other brands of compression connectors with similar compression length.

- Patented rotating connector positioner.
- Molded cushioned handle.
- High carbon tool steel frame.
- Black oxide rust resistant finish.

Application

- For crimping F type compression fittings on RG 6, 59, 7 and 11.
- For crimping SealSmart F connectors on RG59, 6 & 6 Quad.

Marking/Packaging

- Individually boxed.
