

# Hand Seamers

**Work. Perform. Outlast.**

Limited Lifetime Warranty

Die-Cast Zinc Jaws

**S5R**  
Compact 5 in. (127 mm) Jaws  
with Big 2 in. (51 mm) Bending Depth

Easy folding  
bends without  
ruining paint  
finish!

Die-cast zinc jaws are gentle on painted or coated metal surfaces and ideal for making clean and accurate bends and seams in aluminum roof flashing, coil stock, or fascia.

Ergonomic Redline Handles with unique one-hand operation latch offer maximum compound leverage performance and natural fit and feel.

Die-Cast Zinc Jaws

**S9R**  
Big 9 in. (229 mm) Jaws  
with 2 in. (51 mm) Bending Depth

The jaws feature depth graduations in 1/4 inch (6.35 mm) increments to a maximum 2-inch (50.8 mm) bending depth. The jaws of these large die-cast seamers are bowed so they will hold firmly and evenly across the entire jaw width even when engaged on very light material. These Seamers are not warranted for use as a striking tool or for prying or bending heavy ferrous sheet metal. Durable construction offers long, dependable service life under normal use. These tools also feature rust-resistant nickel plating.

Not for  
use with  
Steel
