

Rapid Support for Immune Defense & Resilience

FAST-ACTING IMMUNE DEFENSE WITH NANOFORMULATED DELIVERY FOR MAXIMUM ABSORPTION

From Dr. Shade

"A strong immune system is built on a foundation of essential nutrients. Immune Charge+® delivers a combination of foundational vitamins and the powerhouse antioxidant elderberry using our proprietary nanoformulation delivery technology, supporting immune resilience when you need it most."

Product Overview & Key Benefits

Immune Charge+ is a comprehensive blend of essential vitamins and antioxidants designed to fortify immune defenses and enhance resilience. Featuring a potent combination of vitamins C, A, D, E, K1, K2, and elderberry (*Sambucus nigra*), this formula delivers powerful immune support with unparalleled bioavailability. Our advanced nanoformulation delivery technology supports rapid absorption, helping you stay fortified against seasonal immune stressors.

ADVANCED IMMUNE SUPPORT

Vitamins A, C, D, and elderberry extract promote a strong, balanced immune response

FAST-ACTING ABSORPTION

Nanoformulated delivery supports rapid uptake for on demand immune support

ANTIOXIDANT & CELLULAR PROTECTION

Helps neutralize oxidative stress and supports epithelial barrier integrity

FLEXIBLE DOSING

Can be used for daily immune maintenance or high-intensity support when needed

RESPIRATORY & GUT HEALTH

Supports lung and gut mucosal defenses, crucial for overall immune resilience

SUGGESTED USE

Maintenance: Take 1 tsp daily
Intensive Support: Take 2 tsp twice daily for up to 5 days, then return to 1 tsp daily

How It Works

The immune system relies on a complex network of vitamins, antioxidants, and cellular responses to maintain balance and resilience. Immune Charge+ delivers science-backed ingredients to fortify these essential pathways. Vitamin C supports antioxidant defenses, neutralizes free radicals, and enhances a healthy immune response, while vitamin A helps maintain epithelial barriers in the lungs and gut, safeguarding against respiratory challenges. Vitamin D plays a crucial role in modulating immune function and supporting T-cell activation for adaptive immunity. Elderberry is a botanical known for its immune-supporting polyphenols and respiratory support.

Why Trust Us?

At Quicksilver Scientific, we develop innovative health solutions rooted in nature and backed by science. Quicksilver Scientific has been formulating and manufacturing highly bioavailable liposomal supplements since 2006.

- Leader in highly bioavailable liposomal delivery system technology
- Sold in 30+ Countries
- Trusted by 30,000+ practitioners/ healthcare providers
- 38 patents issued or pending
- NSF Certified, GMP onsite manufacturing

Achieving optimal immune support requires maximum bioavailability—a challenge that traditional supplement delivery methods fail to meet. Quicksilver Scientific was among the first to master pharmaceutical-grade liposomal technology. This means that every drop of Immune Charge+ delivers immediate, immune reinforcement.

**SMARTER SCIENCE.
