

BRIDGEPORT

RIGID CONDUIT FITTINGS SOLUTIONS

PRODUCT BROCHURE

RIGID CONDUIT FITTINGS SOLUTIONS

Why choose Bridgeport when rigid conduit is specified?

COMPREHENSIVE SOLUTIONS

An extensive range of rigid fittings in various materials and sizes ensures the perfect option for any application.

QUALITY ASSURANCE

Our products undergo rigorous testing and inspection processes to ensure uncompromising quality and performance.

EASE OF INSTALLATION

Engineered for simplicity and efficiency for faster, hassle-free installations, reducing labor costs and project timelines.

DURABILITY

Built to withstand the toughest conditions and minimize maintenance requirements and downtime.

COMPLIANCE

Our products meet or exceed industry standards and regulations, providing peace of mind and assurance of safety and reliability.

CONNECTORS

Threadless rigid connectors offer a quick straight forward installation by eliminating conduit threading. These convenient connectors ensure quick assembly to equipment or enclosures.

COUPLINGS

With a variety of compression and set screw fittings for indoor and outdoor use. From inherently corrosion resistance zinc alloy to the tensile strength of malleable iron, Bridgeport has the coupling to get the job done.

HUBS

Our line of malleable iron and zinc grounding, vibration resistant and NEMA 4-rated hubs will withstand many adverse conditions.

Threaded Hub -
Malleable Iron

Ground Hub -
Zinc

Threaded Hub -
Zinc

RIGID/IMC TRANSITION FITTINGS

Pull wire from one raceway to another with our extensive line of listed transition fittings with increased productivity. Save material and implement better approaches in lieu of a box.

ELBOWS & CONDUIT BODIES

Provide easy access for maintenance, pulling of wires, and making splices in the conduit system. Made of malleable iron and aluminum in various styles and configurations.

Type LB - Malleable &
Aluminum

Type LR - Malleable &
Aluminum

Type LR - Malleable
& Aluminum

Type LL - Malleable
& Aluminum

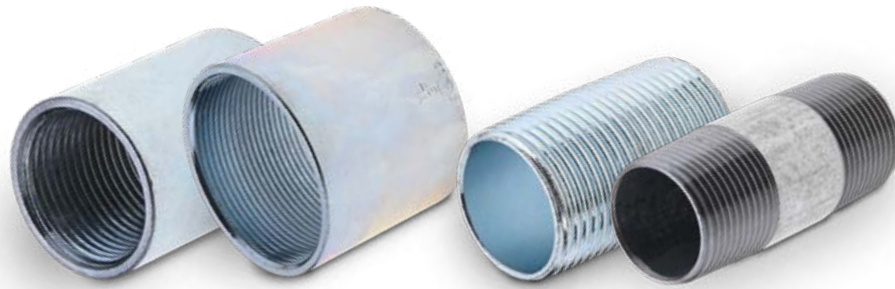

Coupler Elbows -
Zinc & Aluminum

Connector Elbows -
Zinc & Aluminum

THREADED COUPLINGS & NIPPLES

Made from galvanized steel, our couplings connect rigid metal conduit (RMC) and intermediate metal conduit (IMC), provide physical protection in the toughest environments.

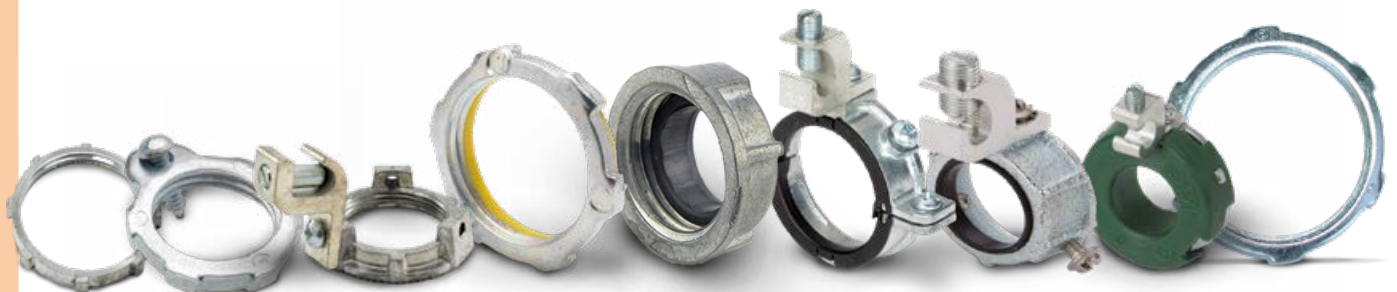

GRC Couplings - Steel

GRC Nipples - Steel

LOCKNUTS & BUSHINGS

Ensure your conduit connections will be fast and secure. In conjunction with Bridgeport bushings, wires will be protected during the pull.

Locknut - Zinc

Anti-Vibration Locknut - Steel

Grounding Locknut - Zinc

Raintight Sealing Locknut - Steel

Insulated Bushing - Zinc & Malleable

Insulated Split Grounding Bushing

Threadless Grounding Bushings - Malleable Iron

Insulated Grounding Locknut - Zinc

Locknut - Steel
