

8.5" and 6" Lineman's Pliers

P/N 12201C

P/N 12206C

*For gripping, twisting,
bending and cutting
wire and cable.*

The Platinum Tools **8.5" Lineman's Plier** is a fresh take on a classic design. For gripping, twisting, bending and cutting wire and cable. The two-tone (TPR) molded comfort grip handle helps make any job a breeze.

- Features a 6140CrV drop forged carbon alloy steel body with a hardness level of 45±3 and a blade hardness of 58-61 to ensure a clean cut for years to come.
- With a polished finish, you have a tool with great functionality and looks.

The Platinum Tools **6" Lineman's Plier** is the miniature version of the traditional design. For gripping, twisting, bending and cutting wire and cable. The two-tone (TPR) molded comfort grip handle helps make any job a breeze.

- The compact smaller design allows it to fit in places larger Lineman's pliers cannot.
- Features a 6140CrV drop forged carbon alloy steel body with a hardness level of 45±3 and a blade hardness of 58-61 to ensure a clean cut for years to come.
- With a polished finish, and you have a tool with great functionality and looks.
