

Unlock Energy, Clarity, and Detoxification

METHYL B-COMPLEX FOR ENERGY, MOOD AND LIVER SUPPORT

From Dr. Shade, Quicksilver Scientific® Founder

"B vitamins are essential nutrients for our biology – they are crucial for energy production, nervous system health, and overall cellular function. Stress, lifestyle choices, age, and even medications can deplete B vitamins rapidly. We developed liposomal Methyl B-Complex to help quickly deliver the complete spectrum of balanced B vitamins directly to cells to support optimal energy, mood, and cellular function so you can feel your best."

Product Overview & Key Benefits

Methylation is like your body's master control switch—powering everything from detox and energy to focus and mood. But it only works when B vitamins are in full supply. Methyl B-Complex delivers all eight essential B vitamins in a balanced format to support under methylators and over methylators alike. This formula also includes trimethylglycine (TMG), another important methyl donor, and milk thistle for extra liver and detoxification support.

COMPLETE B VITAMIN BLEND

Provides all eight essential B vitamins in bioavailable formats for quicker absorption and utilization

ENERGY & ENDURANCE

Helps convert food into lasting energy to power your body and mind

SUPPORTS BALANCED METHYLATION

Methyl factors support gene expression, cardiovascular health, and neurological function

LIVER & DETOX SUPPORT

With milk thistle and TMG to support natural detoxification and liver function

COGNITION & MOOD

Supports healthy neurotransmission for clearer thinking and a more balanced mood

SUGGESTED USE

Take 2 pumps by mouth once daily. Hold for 90 seconds before swallowing. Take on an empty stomach, at least 10 minutes before meals

How It Works

This formula delivers the complete range of B vitamins—plus trimethylglycine and milk thistle—to fuel your energy, mood, and detox systems. Our advanced liposomal delivery technology helps these nutrients absorb quickly bypassing the digestive breakdown process, so your body can put them to work right away. The result? Daily support that helps you stay sharp, balanced, and resilient.

Why Trust Us?

Quicksilver Scientific® has been formulating and manufacturing highly bioavailable liposomal supplements since 2006.

- Leader in highly bioavailable liposomal delivery system technology
- Sold in 30+ Countries
- Trusted by 30,000+ practitioners and healthcare providers
- 38 patents issued or pending
- NSF GMP Certified Facility

Efficient Delivery. Real Results.

Understanding that ingredient absorption is a key factor in product efficiency, Quicksilver was among the first supplement companies to develop pharmaceutical-level liposomal chemistry to improve upon delivery and absorption capabilities. Methyl B-Complex uses our advanced liposomal delivery system to help the spectrum of B vitamins reach circulation quickly. This delivery helps support multiple biological processes including energy production and neurological function – for the fast, daily support you need.
