BRAND ATTRIBUTES

ERGONOMICS

OUR ERGONOMIC VISION FOR EVERY SHOOTER

Within the firearms industry, we stand at the forefront of ergonomic innovation, envisioning a future where every shooter, regardless of size or stature, experiences the pinnacle of comfort and control. Unlike the one-size-fits-all ethos of our competitors, we take a bespoke approach, meticulously crafting firearms that understand and adapt to the individual needs of each shooter. From the seasoned marksman to the novice enthusiast, our commitment to ergonomic excellence ensures that every Walther firearm is an extension of its owner — a tailored masterpiece designed for optimal comfort, precision, and a sublime shooting experience.

At Walther, we don't just aim for excellence; we craft it, ensuring that every shooter finds their perfect fit in the symphony of our ergonomically designed firearms. Welcome to a world where ergonomics isn't a feature; it's a tailored experience.

ACCURACY

OUR COMMITMENT TO DELIVER PRECISION FOR EVERY SHOOTER

Our commitment to precision extends beyond bench-made accuracy, delving into the realm of practical shooting scenarios. We believe that the pinnacle of accuracy should not only be attainable in controlled settings but seamlessly transfer to real-world shooting situations. It all begins with the heartbeat of our firearms — the trigger. Crafted with exacting precision and designed to perfection, our triggers redefine the shooting experience. Our advanced trigger designs and barrel precision are intricately honed to ensure that shooters can effortlessly achieve accuracy both on the range and in dynamic environments. This holistic approach reflects our dedication to empowering every shooter with the ability to achieve optimal accuracy under diverse conditions.

OWNERSHIP

YOUR OWNERSHIP EXPERIENCE: CRAFTED FOR SATISFACTION, FROM START TO FINISH

Owning a Walther isn't just about the moment of purchase—it's the beginning of an enduring experience. As a Walther owner, you become part of a thriving community, and our commitment extends far beyond the initial transaction. Our firearms aren't just tools; they're an experience, embraced by the world's elite shooters in competitions, trusted by law enforcement, and making a statement on the silver screen. We offer more than a gun; we provide a lifestyle, a premium and desirable encounter that begins with the confidence of a lifetime's support. We're here to guide you through the Walther lifestyle, showcasing various training techniques and activities in the dynamic world of shooting sports.

Your journey as a Walther owner is ongoing, enriched by a supportive community that shares your passion for precision and performance. Welcome to a lifestyle that evolves with you, where the Walther experience is a lasting and empowering journey.

BRIEF HISTORY OF WALTHER

130 YEARS OF INNOVATION

For centuries, areas with ore deposits have been centers of firearms manufacturing. An important example is the region around Suhl and Zella-Mehlis in Thuringia. Modest blacksmiths gave rise to special trades such as that of rifle maker, which was the trade of the forefathers of the Walther family. One of them was August Theodor Walther, who married the granddaughter of the respected rifle maker, Gustav Wilhelm Pistor from Asbach-Schmalkalden. Their son, Carl Wilhelm Freund Walther, laid the foundation for Walther. Born in 1858, he started his own rifle-making business after completing his education in 1886. With the assistance of his apprentice, Carl Walther began to manufacture hunting and target-shooting rifles with Martini and Ayt breech-block actions.

1886

Foundation of the company by Carl Walther in Zella St. Blasii in the state of Thuringia, Germany

1908

Release of the Walther Model 1, caliber 6.35 the first self-loading pistol.

1925

FModel 1925: Based on the frame of the Model 6, the first competition pistol is created. The mother of all Walther sport pistols

1929

Model PP: Police Pistol. Standard calibers are .32 ACP and .380 ACP

1931

Model PPK: Police Pistol Kriminal. Standard calibers are .32 ACP and .380 ACP

1940

Model P38: The P38 becomes standard sidearm of the Wehrmacht and replaces the Luger 08, cal. 9mm Luger

1951

The production is re-established in Ulm in the state of Baden-Wuerttemberg, Germany in the "Obere Donaubastion" (Upper Danube Bastion). Production of air rifles. Production of firearms was not permitted until 1954

1953

Relocation to the newly built factory at Karlstrasse 33 in Ulm

1956

Model P1: A version of the P38 with aluminum alloy frame. The P1 becomes standard sidearm of the Bundeswehr (German Armed Forces) and remains in service until 1996

1968

Model GSP: Gebrauchs-Sport-Pistole (Utility Competition Pistol). Milestone in the development of sport pistols. Until today 150,000 units built

1978

Model P5: At its time, the most modern service pistol with internal safeties Standard issue sidearm of various national and international LE agencies

1987

Model P88: First pistol from Walther with Browning-Petter-SIG system for the LE market

1993

Umarex acquires the Carl Walther company Substantial investments in development and state-of-the-art production

1996

Model P99: The company's first polymer pistol. The first striker fired pistol with single and double-action trigger

1999

Model LG300: High-tech air rifle. Milestone in air rifle design and manufacturing

2000

Model LP300: Comparable to the LG300. Innovative air pistol for top shooters

2005

Relocation to the brand-new building Im Lehrer Feld 1 in Ulm. Modern and very representative building. Process-optimized for efficient operations

2006

Takeover of the Hämmerli brand and product range

2007

Model PPS: Police Pistol Slim. Sub-compact, slim polymer pistol for concealed carry. Dimensions like the PPK, but lighter and with much greater firepower. Caliber 9mm Luger

2010

Model LG400: Technological quantum leap over the LG300. Benchmark in terms of shooting performance and low vibrations

2011

Model PPQ: Further development of the P99 for special forces. New benchmark in trigger design with the Quick Defense trigger

2015

Model Q5 Match: Sport version of the PPQ with 5" barrel. Optics Ready

Model LG400-E: Electronic trigger allows greater precision shooting due to reduced travel and forces of moving parts

2016

Model KK500: A true firework of innovation with short "AmbiAction": tool-free change of bolt from right to left. Bolt locks with three locking lugs. Ball-bearing trigger

2018

Model LP500: Innovative air pistol with interchangeable mechanical or electronic trigger

2019

Model LG400 Monotec: Innovative system carrier as part of the barrel. Optimization of shooting performance and vibrations

Model Q5 Match Steel Frame: first Walther pistol with steel frame since the P38. High-quality professional pistol for uncompromising use in dynamic shooting competitions such as IPSC, USPSA, IDPA

2021

Model PDP: Performance Duty Pistol. Premium service pistol with outstanding trigger characteristics and ergonomics. 100% Optics Ready. Available as Full Size and Compact

2022

Model PDP F-Series: First true duty pistol for women. Shorter trigger reach, easier slide racking, ergonomics of the grip designed for women's hands

2023

Launch of the LG500 itec – Walther's most advanced sports competition air rifle

2024

Launch of the Walther PDP Match Steel Frame and Walther PD380

PDP

OVERVIEW OF SERIES

DEFINED BY OVER A CENTURY OF ENGINEERING PASSION,
PRECISION WORKMANSHIP AND INNOVATION

Walther's timeless innovation has once more achieved a breakthrough never seen before in firearms with the PDP elite handgun. Whether you are on the job or with the family, it is your duty to stay ready for any situation that may come. Now, you can do so confidently with the groundbreaking advancements afforded by the Walther PDP. With revolutionary ergonomics, SuperTerrain Slide Serrations and a brand-new Performance Duty Trigger, this is the next evolution in world-class ingenuity for pistols. No other handgun can put all the tools you need at your disposal like the Walther PDP. It's a handgun specifically designed to maximize readiness no matter the circumstance, and with the support of Walther's historic ingenuity, its guaranteed to surpass all expectations time and time again. The unique design offers versatile advantages when you need them most, providing supreme performance in any condition, making this the go-to choice for shooters who demand excellence every single day. As the ideal firearm for those seeking unmatched versatility, dependability and effectiveness in both concealed carry and conventional service situations, the Walther PDP is how you stay ready.

RED DOT ERGONOMICS

The RDS ergonomics on the Walther PDP are designed to make the switch to the popular red-dot sight system easier for new RDS shooters and faster for RDS veterans. The RDS ergonomics have been engineered to allow shooters to locate the red-dot instantly when presenting, achieved by engineered pinky pressure and offhand support. The PDP grip angle is designed for a natural aiming position, which, coupled with the innovative RDS ergonomics, allows lightning-fast acquisition of the red-dot. When you are ready to make the switch to using an RDS, the PDP is engineered to get you there faster and easier.

PERFORMANCE DUTY TEXTURE

Developed by Walther to provide a premium yet functional grip, our Performance Duty Texture offers an aggressiveness to maintain proper grip control. With its tetrahedron design, it is non-abrasive, causing no irritation to the skin or clothing of the user.

Walther has pushed the boundaries of testing in some of the harshest conditions, be it torrential rainfall, extreme heat and humidity, icy cold temperatures, or thick mud, the Performance Duty Texture of the PDP consistently delivers peak performance.

PERFORMANCE DUTY TRIGGER

The brand-new Performance Duty Trigger (PDT) is Walther's new and improved trigger system, achieved by shortening the length of travel and increasing the tactile definition of the trigger break. The incredible result is a highly distinct, recognizable feel for repeatable accuracy that will maximize your confidence. When you are ready to take the shot, this is the trigger you want.

DYNAMIC PERFORMANCE TRIGGER

FEATURED ON ALL PDP PRO AND PDP MATCH SERIES PISTOLS.

Get ready to experience a new level of control and responsiveness with the Dynamic Performance Trigger®.

Whether during rapid-fire scenarios or critical engagements, the Dynamic Performance Trigger® provides a significant reduction in trigger weight, take up, and reset making this the ultimate striker-fired trigger.

A highly distinct, recognizable feel for repeatable accuracy that will maximize your confidence. When you are READY to take the shot, this is the trigger you want.

PDP STEEL FRAME

OVERVIEW OF SERIES

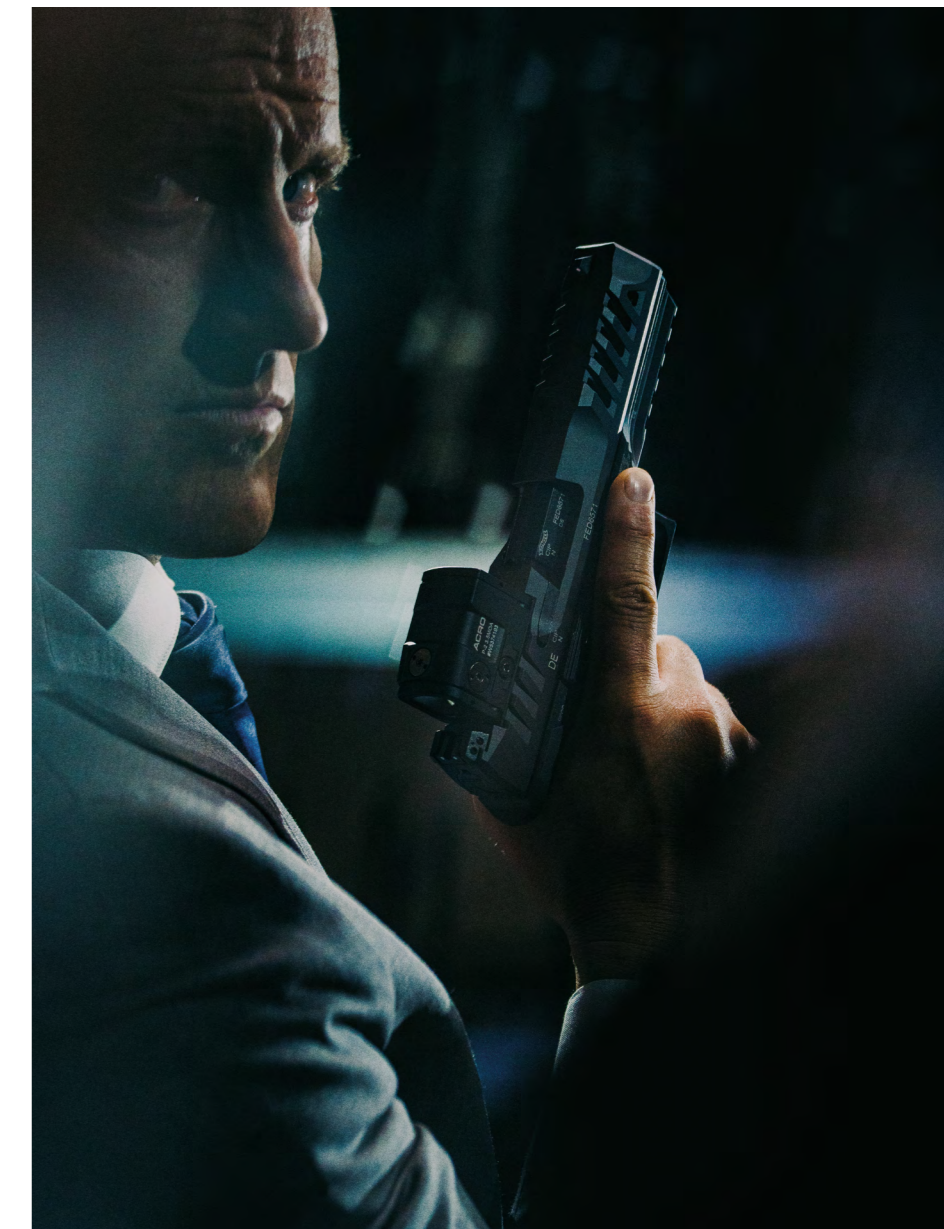

Step into a new dimension of firearms excellence with the Walther PDP Match Steel Frame—a masterpiece meticulously designed to shatter performance boundaries and redefine precision. This extraordinary firearm is not just an evolution; it's a revolution. Introducing a precision-machined steel frame that elevates the concept of excellence to unprecedented heights. At the core of the Walther PDP Match Steel Frame, you'll discover a host of advantages. The precision-machined steel frame guarantees the PDP Match's ability to endure the harshest conditions, emerging as a steadfast companion for countless years of service.

The substantial weight of the steel frame is a gamechanger, significantly taming recoil and delivering a level of smoothness in every shot that's second to none. The result? Lightning-fast follow-up shots and laser-like accuracy. Whether you're engaging in rapid-fire sequences or demanding precision shooting, the steel frame's weight contributes to unwavering stability, granting you the control needed for consistently superior results.

The exacting balance between the slide and frame fine-tunes the handling of the PDP Match Steel Frame, making it the embodiment of precision and control for the most demanding shooters. With the inherent stability provided by the steel frame, you'll achieve groupings that are almost unbelievable and shot placement that's nothing short of perfection. Your shooting performance is taken to the next level.

F-SERIES

OVERVIEW OF SERIES

DEFINING A NEW REVOLUTIONARY ACHIEVEMENT FOR FEMALE SHOOTERS WITH WALTHER'S LEGACY OF UNPARALLELED PERFORMANCE

The same engineering passion, precision workmanship, and innovation that made Walther's PDP a groundbreaking achievement in firearms is now tailored specifically to female shooters with the PDP F-Series pistol. The new F-Series elevates the next evolution in world-class ingenuity for pistols to meet the demands of female shooters like never before. Accounting for precise structural differences, Walther has completely re-engineered the ergonomics of the grip to be designed for the exact biomechanics of women's hands. Featuring a new patented operating system resulting in a 20% reduction in slide rack force, paired with all the performance duty features of the PDP, the F-Series pistol is the elite choice for all women. Put Walther's timeless legacy of unmatched performance in your hands today, because whether you are with your family or on your own – it is your duty to be ready.

OVER A CENTURY OF ENGINEERING PASSION & PRECISION WORKMANSHIP SPECIFICALLY DESIGNED FOR A WOMAN'S HAND

For female shooters who simply will not sacrifice on unmatched versatility, dependability and effectiveness in both concealed carry and conventional service situations, the Walther PDP F-Series is how you stay READY.

"THE F-SERIES IS THE SOLUTION WOMEN SHOOTERS HAVE ASKED FOR, FOR YEARS. WALTHER ENGINEERED A HANDGUN BASED ON OUR HANDS, WITH OUR FEEDBACK, TO CREATE A FUNCTION AND FIT UNMATCHED IN THE MARKETPLACE. PAIR A WOMAN WITH A FIREARM ENGINEERED FOR HER AND SHE IS FORMIDABLE AT FIRST SHOT."

Tatiana Whitlock

Walther Defense Division USA

ERGONOMICS: PERFECTLY DESIGNED FOR A FEMALE SHOOTER

REDUCED GRIP CIRCUMFERENCE

Designed from the ground up to fit the contour of a woman's hand, the F-Series grip is smaller where it needs to be giving the shooter maximum control and faster follow-up shots.

The RDS Ergonomics on the Walther PDP are designed around making the switch to the popular red-dot sight system easier for the new RDS shooter and faster for the RDS veterans. The RDS Ergonomics have been engineered to allow shooters to locate the red-dot instantly when presenting, achieved by engineered pinky pressure and offhand support. The PDP F-Series grip angle is designed for a natural aiming position which complimented and coupled with the innovative RDS Ergonomics, allow lightning-fast acquisition of the red-dot. When you are READY to make the switch to using an RDS the PDP is engineered to get you there faster and easier.

REDUCED TRIGGER REACH

Introducing the F-Series Reduced Trigger Reach, achieving superb trigger control has never been easier. The F-Series trigger has been moved to a location where any hand can find the perfect trigger finger placement. Proper trigger finger placement is a key to accurate shooting and trigger control. You will feel the difference the moment you pick it up.

REDUCED SLIDE FORCE

Walther has developed a brand new operating system that results in an unprecedented 20% reduction in slide racking force. Utilizing a two-piece striker, all shooters will be able to experience the performance of the PDP with an intuitive slide rack that is as natural as it is durable. The Reduced Slide Force is the next step in exceeding expectations for shooters who know what it takes to stay READY.

PDP F-Series Specifications

PERFORMANCE DUTY TRIGGER

The brand-new 'PDT' Performance Duty Trigger is Walther's new and improved trigger system which has been achieved by shortening the length of travel and increasing the tactile definition of the trigger break. The incredible result is a highly distinct, recognizable feel for repeatable accuracy that will maximize your confidence. When you are READY to take the shot, this is the trigger you want.

PERFORMANCE DUTY TEXTURE

Developed by Walther to provide a premium, yet functional grip, the Performance Duty Texture provides an aggressive surface to maintain proper grip performance. With its tetrahedron design, it is non-abrasive so there will be no irritation to the skin or clothing of the user.

Walther has pushed the boundaries of testing in some of the harshest conditions to endure this pattern is READY when you are. Whether it's torrential rainfall, extreme heat, and humidity, icy cold temperatures, or thick mud, the Performance Duty Texture of the PDP will help you be READY when it's imperative you have the perfect grip.

SUPERTERRAIN SERRATIONS

The SuperTerrain Serrations are uniquely designed protruding serrations on the slide, allowing for quicker and more responsive hands-on engagement with the pistol. Instead of the standard subterranean cuts that are cut into the surface of the slide, Walther has broken the mold with a SuperTerrain design to raise the serrations above the surface of the slide offering a new more positive feel to operating the action. When you go to make READY, you will feel the difference the instant you put your hands on it.

RED DOT READY

All PDP F-Series models come optics READY. If you plan on putting an optic on your pistol then you are READY to go, if you want to keep that factory look then you are covered with the included cover plate.

WMP

OVERVIEW OF SERIES

LIGHTWEIGHT. RUGGED. READY FOR ADVENTURE.

In life, sometimes the unexpected can happen, whether it's an opportunity for fun and recreation or, perhaps, a life-threatening situation. It's your duty to be READY. So, when it's time to hit the outdoors, and you need a reliable firearm by your side, the unique Walther Magnum Pistol (WMP), .22 magnum semi-automatic, is the only choice. This isn't just another target practice plinker; Walther has developed a high-quality, lightweight, easy-to-shoot, and affordable pistol for shooters who want to stay READY as part of their active outdoor lifestyle.

Walther's history of producing high quality, shooter-focused firearms sets this slide-mounted red-dot rimfire pistol apart from the competition. Featuring an optics ready slide, best-in-class ergonomics, and a first-time patented ambidextrous reloading mechanism, incorporating both paddle and button releases, called the 4U. With four total activation points, the 4U release mechanism is the most versatile ambidextrous mag release ever created. Together, all of these features help to give shooters an unrivalled shooting experience, wherever they go.

With two 15-round magazines and three optics adaptor plates included, plus easy field strip capabilities, unparalleled accuracy and ultra-low recoil, this pistol is READY right out of the box to tackle any adventure.

The Walther Magnum Pistol delivers what only Walther can provide, designed for the everyday adventure seeker who is ready to not just survive but thrive. Introducing the Walther Magnum Pistol (WMP), the perfect firearm for the explorer in all of us.

Q4 & Q5 SF

OVERVIEW OF SERIES

Q5 MATCH SF - POWER. FORGED IN STEEL.

Breaking boundaries and shattering expectations. The Q5 Match Steel Frame is superior performance taken to the next level through heightened functionality and a relentless determination to deliver precisely what the experienced shooter demands. The real competitive edge begins here.

The Q5 Match Steel Frame is a testament to the level of excellence found solely at Walther. Its steel frame – precision machined from solid steel billet – improves ergonomics with a wrap-around grip panel, extended beavertail, full-length picatinny rail, and recessed slide release. The weight distribution of the steel frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency.

A modern work of art in its own right, the slide is outfitted with features previously found only on custom handguns. It is ported and optic ready, with LPA sights as well as front and rear serrations. Walther's superior accuracy is quickly realized when shooting thanks to the 5" barrel with polygonal rifling and stepped chamber.

The Q5 Match Steel Frame is a remarkable triumph made possible only by Walther's superior standards. Despite common misconceptions, you can buy performance.

MODELS

- Q5 MATCH SF PRO
- Q5 MATCH SF

Q4 SF - PEAK PERFORMANCE. IN ANY SITUATION.

Outmatched by no one. Walther continues their tradition of superiority with a handgun designed specifically for those who only buy the best and nothing less. This is the ultimate representation of high-class performance in a conceal carry package that just can't be found anywhere else.

A feat in firearm engineering that simply must be felt to be believed, the Q4 Steel Frame will surpass all expectations with its unrivaled accuracy and performance. Its steel frame – precision machined from solid steel billet – improves ergonomics with a wrap-around grip panel, extended beavertail, full length picatinny rail and recessed slide release. The weight distribution of the steel frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency.

A testament to Walther's enduring legacy of excellence, the Q4 Steel Frame delivers peak performance when you need it most. Featuring Walther's legendary barrel, phosphoric sights as well as front and rear serrations, the advantages this handgun delivers are undeniable.

The Q4 Steel Frame from Walther is an accomplishment that encompasses everything shooters desire in a premier concealed carry firearm capable of outlasting even the toughest conditions.

Get yours today and shoot with the best.

- Vintage
- Black Tie
- Black Diamond
- Golden Ribbon PPK/S

PATRIOT

The "Patriot" limited edition elegantly fuses the rich patriotic history of the United States with the unyielding performance of the Q5 Steel Frame. The distinctive engraving on this iconic pistol is immediately recognizable as an uncompromising embodiment of accomplishment and a passion for quality.

- Patriot engraving applied by the world-famous Bottega Giovanelli in Italy
- 20 lines per inch checkering, satin anodized grip
- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Dynamic Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5 lbs
- One piece wrap-around aluminum grip, machined from a solid block of aerospace grade aluminum alloy. Magazine base plate machined from solid block of pure steel
- Engraved black serrated target front sight and adjustable match rear sight integrated into slide

VINTAGE

Emphasizing the sleek appearance of your firearm doesn't have to come at the cost of effectiveness!

Walther's case color hardening combines both proven functionality and distinctive aesthetics to a degree that simply cannot be achieved by using any other heat treatment available today. Due to the unique process, the special earth-colored effects that result from treated metal parts are highly individual, allowing for each WALTHER Vintage pistol to truly stand out as an exclusive firearm.

Case hardening is a historically traditional process of utilizing technology in gunsmithing mainly to achieve both a higher hardness on the surface, as well as increasing wear resistance. For this purpose, the treated material is deeply enriched with carbon in a granulate of wood, leather and bone charcoal which is then hardened in water through a quenching process. The more complex a component is, the more experience and skill is required to perform this process successfully. During quenching, the steel oxidizes, which helps to form different oxide layers of varying thickness in dynamic colors such as brown, green, yellow, blue, and even magenta. The surface hardness this process establishes in our color-hardened components reaches generally 45-55 HRC. The colorful surface also features a remarkably effective corrosion protection, which is additionally increased by an approx. 1/1000" thin layer of special protection paint.

Walther Meister Manufaktur Vintage

The beautifully marbled and cloud-like shimmering color effects that result from the cooling process of the treated metal parts are incredibly exceptional on every single Walther Vintage handgun. With a case-color-hardened pistol, you can hold a truly unique representation of Walther's ingenuity and proficiency in your hands.

BLACK TIE

The "Black Tie" special edition is deliberately understated, yet its refined looks and added performance, make this unassailable Q5 Steel Frame a modern classic.

- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Stinox® coating applied giving satin finish and outstanding protection against corrosion and wear
- Dynamic Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5 lbs
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy and the magazine base plate machined from solid block of pure steel
- 20 lines per inch checkering, satin anodized grip
- Black serrated target front sight and adjustable match rear sight integrated into slide

BLACK DIAMOND

The "Black Diamond" special edition takes the look and performance of the indomitable Q5 Steel Frame to a purposeful new dimension. With a futuristic lustrous finish, this distinctive pistol imbues a pride of ownership and is a statement of class.

- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Diamond Like Carbon (DLC) coating giving a unique high-polish finish
- Dynamic Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5 lbs
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy and the magazine base plate machined from solid block of pure steel

GOLDEN RIBBON PPK/S

The PPK/s "Golden Ribbon" is a one-of-a-kind Meister Edition to celebrate the Walther PPK/s. It features beautifully elaborate and intricate engraving with a gold-filled Walther logo on a stainless steel backdrop.

Completing the motif, the frame is fitted with beautiful, checkered walnut grips which contribute to both the gun's aesthetic and the shooter's ability to shoot it.

The Golden Ribbon ships in a gorgeous leather-wrapped and embroidered case, complete with the Walther Meister logo. This is the first Meister Series to be custom-built in the United States.

PPS

OVERVIEW OF SERIES

THE SINGLE-STACK THAT STARTED IT ALL

A revolutionary yet practical concept. Delivering the premier concealed carry option with unprecedented accuracy and comfortability, capable of withstanding anything thrown in its way.

Upon its release, the PPS series transformed the industry by introducing a polymer single-stack concealed carry pistol, effectively establishing a trend that remains popular still today. The PPS M2 is a more refined version of that original design, now measuring only 1" thick! It is the ultimate representation of Walther's world-renowned performance catered to the expectations of the modern shooter.

The thin, yet comfortably full frame provides the most grip surface in its class, allowing ample room for offhand support. More grip surface provides significantly improved recoil management when combined with the higher grip supplied by the undercut trigger guard.

The secret to the accuracy of the PPS M2 results from the legendary Walther barrel and an internal steel chassis that provides superior slide-to-frame fit. These features make the PPS M2 the most accurate, controllable, and concealable handgun available on the market. Often imitated, but never duplicated, the PPS series is designed to exceed every expectation and deliver the absolute best shooting experience possible.

CCP

OVERVIEW OF SERIES

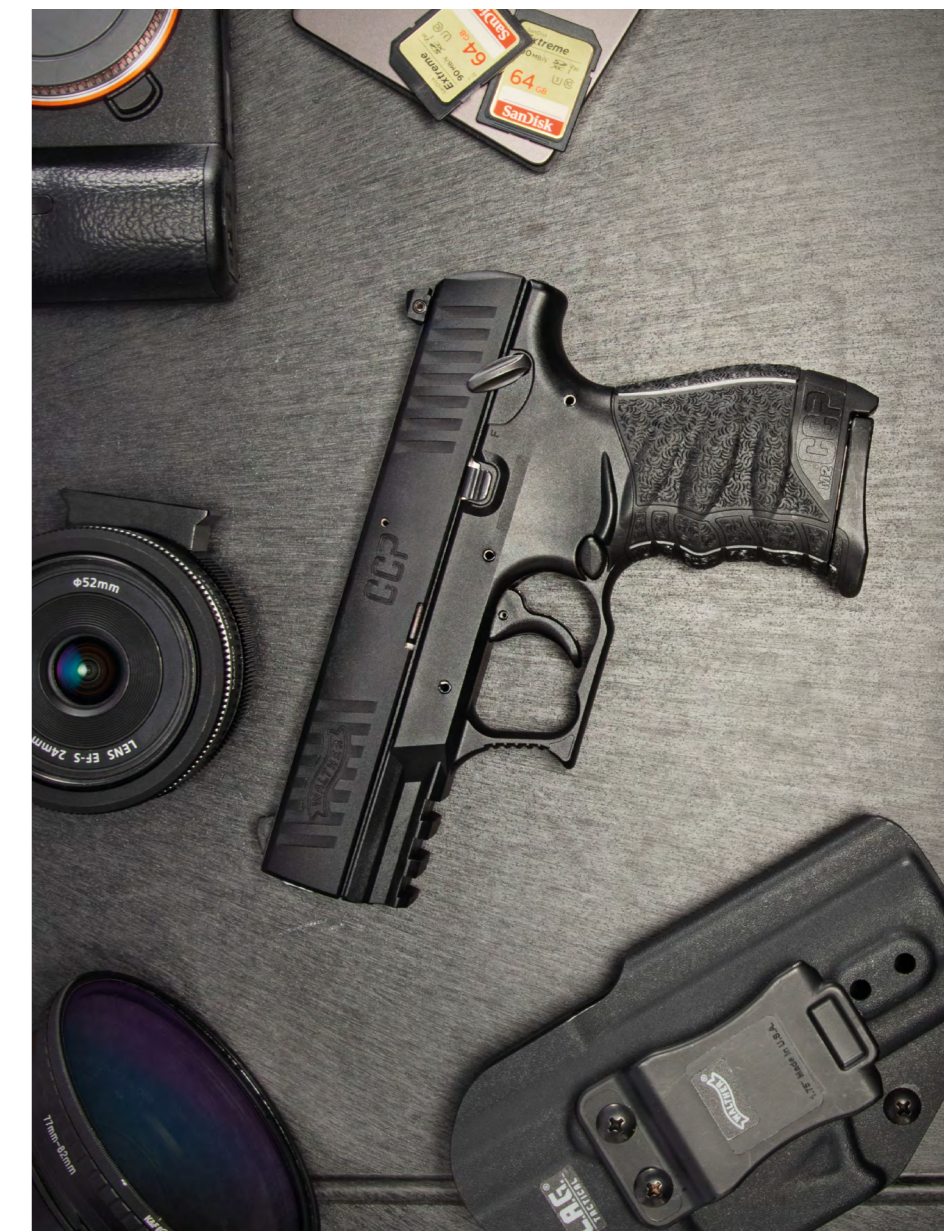

EASY TO RACK. TOOL-LESS TAKEDOWN. REDUCED RECOIL

The CCP – or Concealed Carry Pistol – is the first polymer pistol with Softcoil™ gas technology. This technology improves the user's experience by reducing overall felt recoil and allowing the slide to be easily manipulated regardless of hand strength. The CCP is also the most ergonomic and comfortable handgun in Walther's dynamic concealed carry lineup. Tool-less takedown and a fixed barrel allow for easy cleaning and maintenance, making this one of the most accessible pistols available today.

With additional popular features such as an external safety, front, and rear slide serrations and a reversible magazine release, the CCP M2 handgun is sure to become a valuable addition to your everyday carry.

SOFTCOIL™ GAS TECHNOLOGY

GAS-DELAYED BLOWBACK

- A system that uses gas pressures from the ignited cartridge, directs it through a small port in the barrel, located directly in front of the cartridge chamber.
- The gasses then fill the piston chamber.
- As the slide moves rearward, the piston (attached to the slide, located under the barrel) moves through the gasses in the piston chamber.
- This process results in slowing down and delaying the rearward motion of the slide.

THE PISTON

- Attached to the slide and travels underneath the barrel.

ADVANTAGES

- Reduced felt recoil
- Less force required to operate slide

CCP M2+

PPK

OVERVIEW OF SERIES

Walther's industry-leading innovation takes the spotlight with their PPK model handguns. At the time of its invention over 80 years ago, the PPK inspired an entirely new category in the firearm industry, now widely known as the concealed carry pistol. To fill the need for performance in a concealable package, Walther broke the mold of pocket pistols and full-size military pistols to bring undercover officers a more-practical and reliable option, the PPK.

To execute this revolutionary concept, the Police Pistol Kriminal took all the modern advancements available at the time and combined them into one performance leading pistol. It features a double-action/single-action trigger that decocks when rotating the safety down into the safe position, first introduced by Walther.

Few guns have withstood the test of time like the brilliantly designed PPK. To this day, the PPK is still one of the most sought-after concealed carry pistols on the market. This demand serves as a testament to Walther's long-enduring legacy of excellence and unparalleled performance. The timeless design and superior engineering make the PPK a true legend amongst firearms.

After the Gun Control Act of 1968, Walther created the PPK/S by combining the Walther PP frame and the Walther PPK barrel. Resulting in a frame that adds one additional round of capacity when compared to the PPK. Today, both variants are available to purchase, due to new manufacturing by Walther's USA based facility in Fort Smith, Arkansas.

P22

OVERVIEW OF SERIES

THE ORIGINAL TACTICAL RIMFIRE

Originality at its finest. This firearm is a testament to a history of unprecedented achievement in both ingenuity and effectiveness. Able to surpass the expectations of modern shooters and define the competitive advantage only Walther can provide.

Walther once again took the industry by storm with the introduction of the first polymer frame semi-auto rimfire pistol, the P22. The consistent reliability, timeless style, features, and outright affordability pushed this series to become the absolute standard. Best-in-class ergonomics, supported by interchangeable backstraps, establishes the P22 as one of the most comfortable handguns available today. Plus, an ambidextrous magazine release and slide safety make this pistol perfect for both right and left-handed shooters.

Premium features such as windage adjustable rear sight, captured recoil spring, double-action/single-action trigger, and threaded barrel help to solidify this pistol as a leader in its class. The extremely reliable P22 is ready for anything from varmint control to recreational shooting. A rare feature for a rimfire, the P22 is covered by the Walther Legendary Lifetime Limited Warranty. This pistol is the premiere handgun for those seeking superior quality and performance from a tactical rimfire.

30-DAY MONEY BACK GUARANTEE

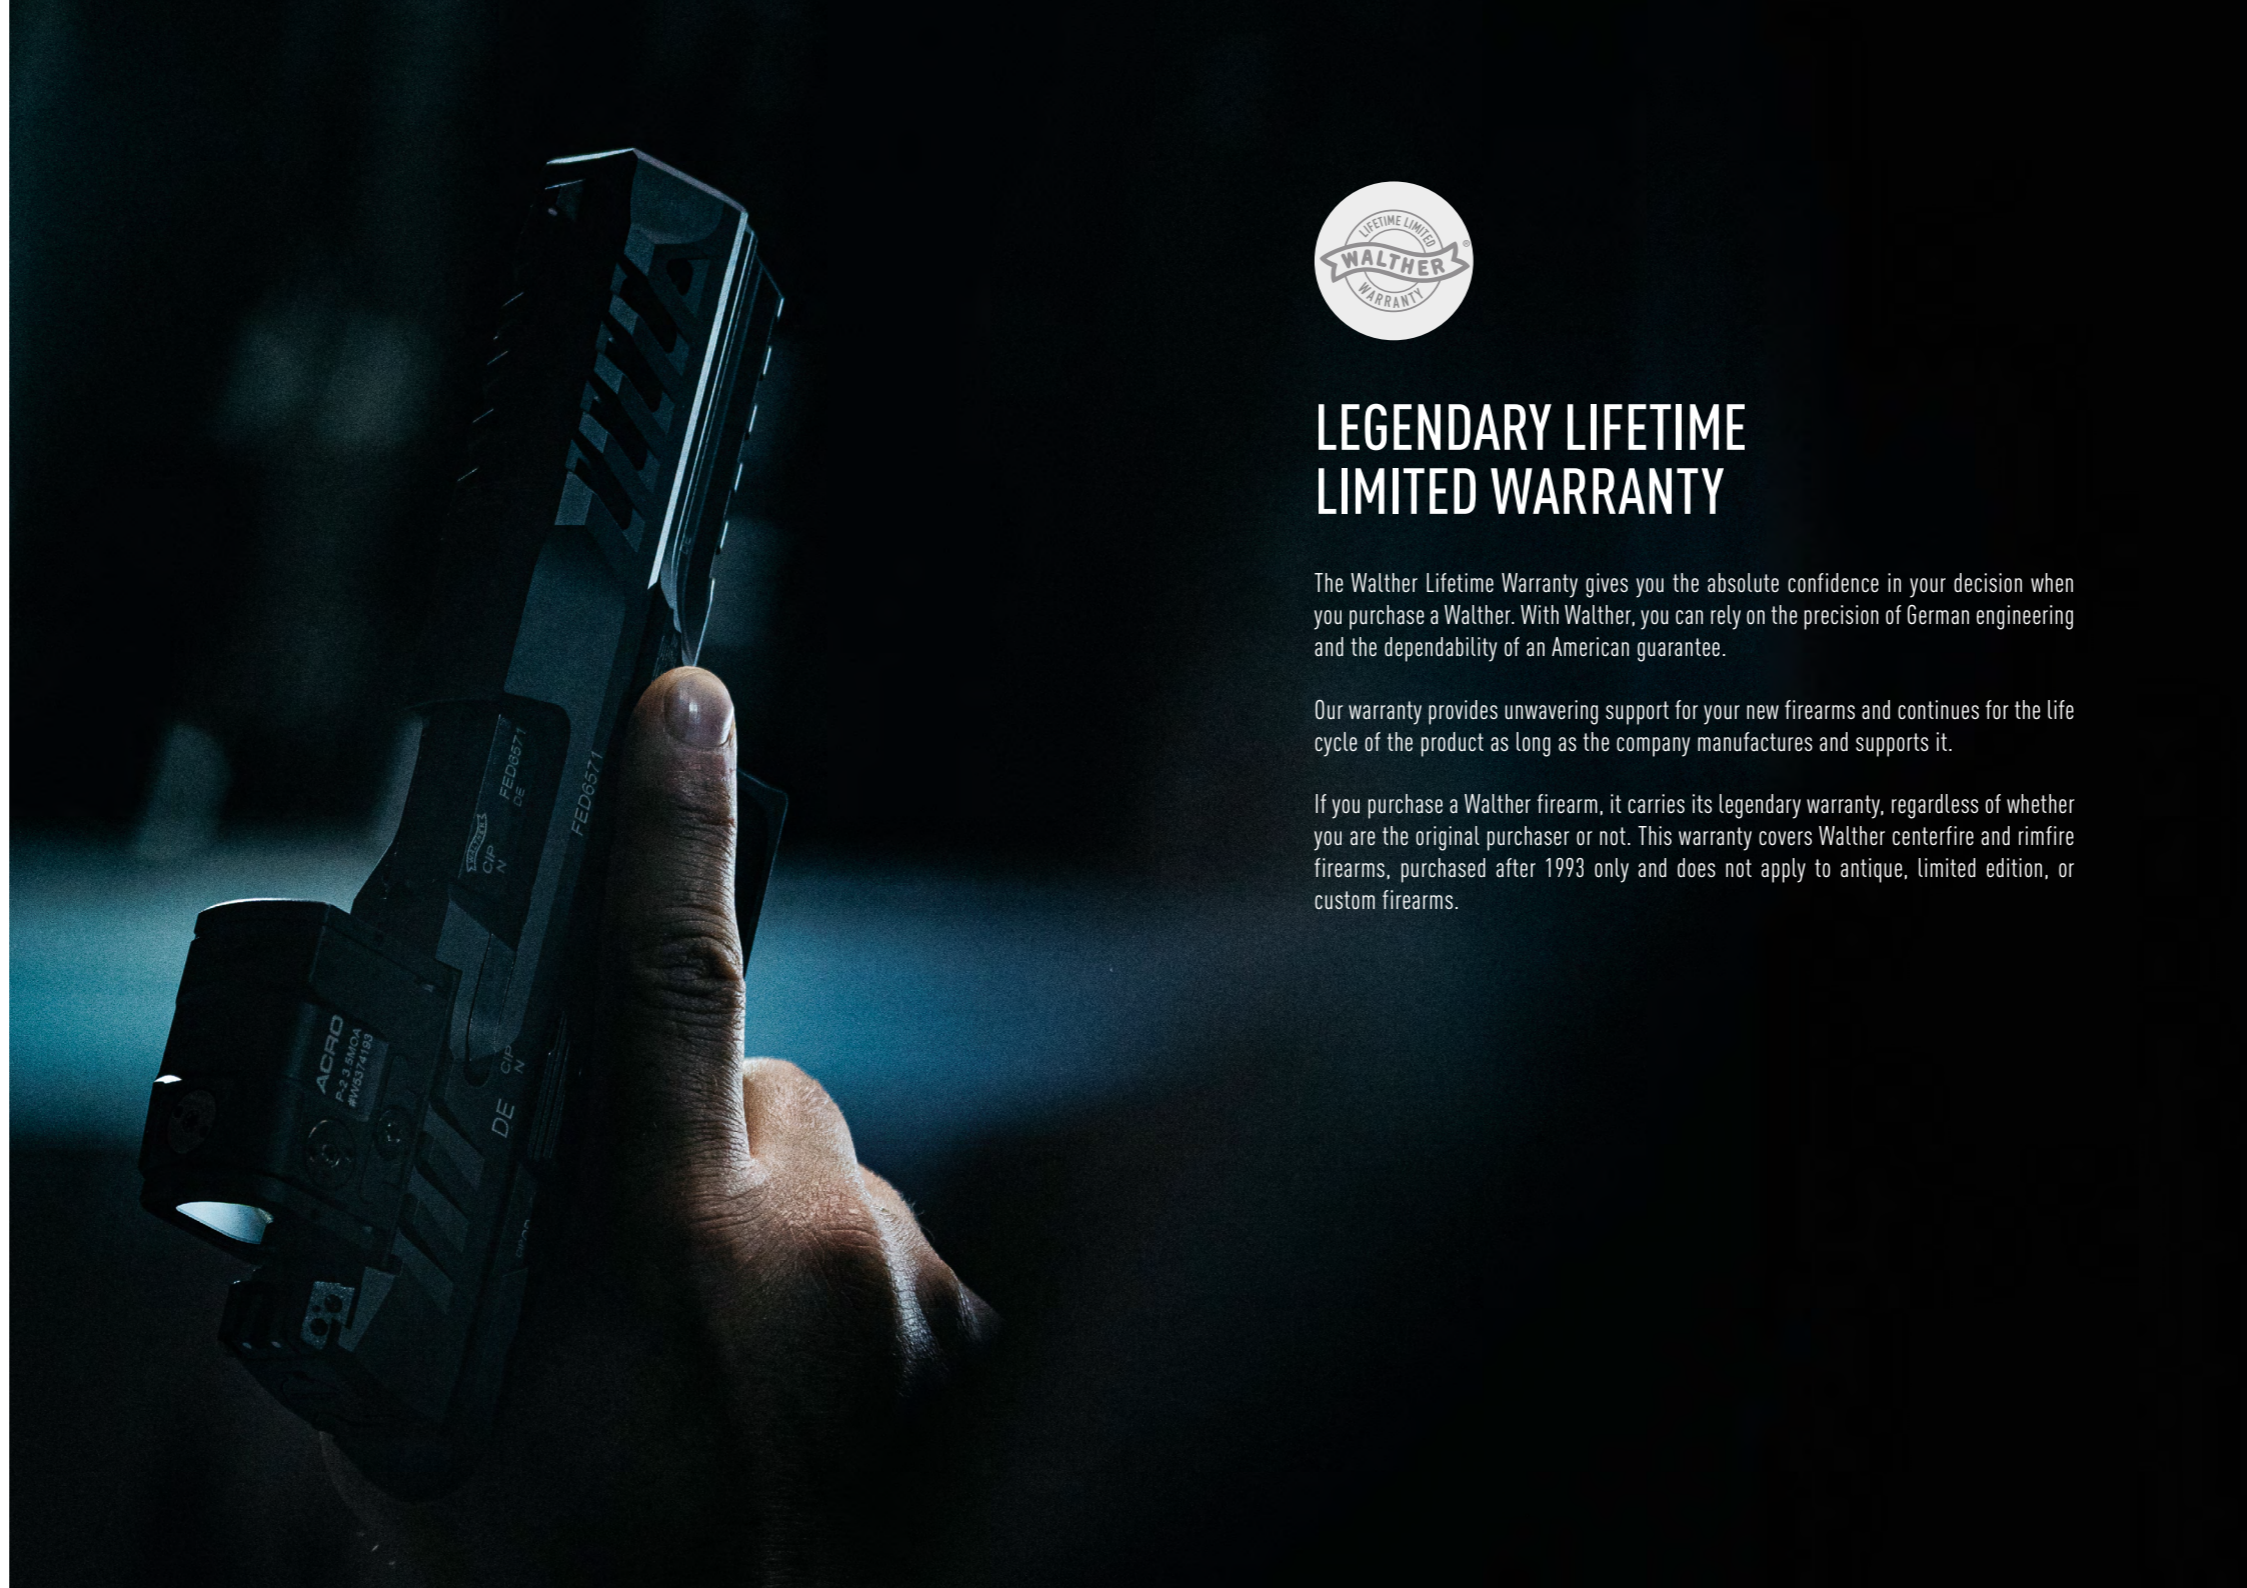

It's difficult to tell if you're going to love a pistol based only on the limited time you spend handling it at the counter of your local gun shop or looking at it online. To really figure out if it is the gun for you, you need to shoot it. We encourage you to shoot it as much as you want for 30-days then decide if it is right for you.

Whether you buy it from your local gun shop or your favorite online retailer you can do so with the confidence that you can return it within 30-days for a full refund + tax.

Exclusions: Does not include – Meister Manufaktur series, Law Enforcement IOP, CREED

The returns process is simple for the customer:

1. Visit www.waltherownersclub.com
2. Click "Return a Firearm"
3. Fill out the form with your contact information.
4. Upload a copy of your receipt or proof of purchase.
5. Submit the form.
6. Print the return label that will be emailed you.
7. Place the unloaded pistol back in the original case and into a cardboard box with the shipping label.
8. Drop off at approved FedEx location.
9. Receive your refund within two weeks.

LEGENDARY LIFETIME LIMITED WARRANTY

The Walther Lifetime Warranty gives you the absolute confidence in your decision when you purchase a Walther. With Walther, you can rely on the precision of German engineering and the dependability of an American guarantee.

Our warranty provides unwavering support for your new firearms and continues for the life cycle of the product as long as the company manufactures and supports it.

If you purchase a Walther firearm, it carries its legendary warranty, regardless of whether you are the original purchaser or not. This warranty covers Walther centerfire and rimfire firearms, purchased after 1993 only and does not apply to antique, limited edition, or custom firearms.

IT'S YOUR DUTY TO BE READY

When we announced our newest campaign with a single sentence – "It's your DUTY to be READY." – it wasn't just some bland corporate marketing line, it was a message of sincerity. A message to every single shooter who understands the importance of firearms, their safety and the inalienable right to bear arms. It was a message to clearly and concisely show that we are doing everything in our power to support shooters everywhere with not just the absolute best in firearm innovation and performance, but also access to the best training and informative firearms community as well.

At the heart of the "It's your DUTY to be READY." campaign is a willingness to do whatever is necessary to put the needs of every shooter first and foremost, regardless of their situation or circumstance. It's a challenge that we are more than ready to meet.

Civilians who understand the weight of defending their loved ones, law enforcement striving to protect and serve, adventurers who demand reliability when it matters most and even competition shooters who simply won't accept anything less than the best – all know what it takes to be ready. And we do too.

Being ready isn't something that you can just purchase, it's a lifestyle that requires constant attention and engagement in service of the duty we each take on in our personal lives, the duty to protect ourselves and our family, to serve our community or to excel amongst the elite. This includes training with the best, engaging with a larger supportive community and truly understanding the weight of responsibility that comes with the duty you have accepted.

To put it simply, it is a responsibility that we all accept.

WALTHER DIVISIONS

THE DEFENSE, PERFORMANCE, AND ADVENTURE DIVISIONS ARE AN EXTENSION OF WALTHER'S OWN MISSION TO PROVIDE THE CUSTOMER WITH EVERYTHING NECESSARY TO BE READY IN ANY SITUATION. AUTHENTICALLY DEVELOPING AND CREATING PRODUCTS THIS WAY ALLOWS WALTHER OWNERS TO CONCENTRATE ON BEING READY FOR WHATEVER THEY MAY ENCOUNTER.

WALTHER HAS THE PRODUCT COVERED, FOCUS ON BEING READY.

DEFENSE DIVISION

The Walther Defense Division comprises a team of passionate and skilled professionals dedicated to advising Walther, ensuring that the brand and its products lead the industry in concealed carry, duty, and home defense markets.

To ensure real-world experience is incorporated into every Walther product from the ground up, the Walther Defense Division consists of leading trainers and industry professionals. Each member of this unique team specializes in a particular area of handgun self-defense. The combination of these diverse skill sets and experiences assists Walther in creating industry-leading products, embedding this incomparable knowledge into the DNA of every product.

PERFORMANCE DIVISION

The Walther Performance Division redefines what is possible on the range. This group of professional competitive shooters advises Walther with performance upgrades that can help every shooter ensure they can perform to the best of their abilities.

Hundreds of thousands of rounds shot on range by some of the world's leading competitors infuse every Walther product. Each member worked for years tirelessly investing time and money to reach their skill level. Now, teamed up with Walther, collectively we can provide training insights and product advantages that countless shooters have spent many years figuring out. Now, you can be READY to win, faster and more accurate than ever.

ADVENTURE DIVISION

The Walther Adventure Division is a team of modern-day nomads, comprising outdoorsmen and women whose knowledge and experience ensure you are READY wherever you are, no matter how remote or challenging the situation.

Carrying a defensive firearm on your adventure can be a challenging task and the Adventure Division team will provide tips and strategies you never knew you needed when hiking, fishing, hunting, or traveling to a new place for vacation. With many years experience on the road, in the air, deep in the backcountry, the Adventure Division know the best ways to be READY and stay safe on any adventure.

Each member of this unique team is a specialist in a particular area of travel and outdoor adventure, influencing Walther's products and giving a new perspective on being READY.
