STAINLESS STEEL CONNECTORS FOR FOOD & BEVERAGE SOLUTIONS

GraybaR.
works to your advantage

FOOD & BEVERAGE SOLUTIONS

REMKE® carries specialized products designed with food and beverage applications in mind. Our offering includes liquidtight connectors, cord grips, wire mesh grips conduit fittings made from stainless steel. All these products are designed to withstand frequent washdown and designed with minimal hidden or sheltered areas which can retain contaminants.

- 304 and 316 Stainless steel fittings
- No complex surfaces
- Watertight designs
- Made-in-America quality

REMKE® is a trusted, American fittings manufacturer in food and beverage management including commercial kitchens and food processing facilities.

STAINLESS STEEL CONNECTORS

Stainless steel is especially important, as it is a durable, corrosion-resistant material that can be easily cleaned of moisture, grease and other contaminants.

CONDUIT DRAIN FITTINGS

Fittings that are installed at the bottom of enclosures or in a lower section of the conduit system to drain away moisture caused by condensation.

STAINLESS STEEL LIQUIDTIGHT CONNECTORS

For use in wet or dry locations to seal electrical connections against dust, dirt, oil, water, chemicals and other corrosive elements.

STAINLESS STEEL CORD GRIPS

Features a body and compression nut made of Type 304 stainless steel with exceptional tensile strength and endurance against corrosive environments. All RSSS connectors include an embedded Buna-N O-Ring.

WIRE MESH GRIPS

Tuff-Seal™ Support Grips are designed to keep your cables in place and preventing strain and pullout resulting in power failure.

VALOX CORD GRIPS

Tuff-Seal™ Cord Grips are made of Valox, a cutting-edge, non-metallic material with excellent heat, chemical and corrosion resistance. Valox cord grips feature a compression bushing made of high-quality, oil-resistant neoprene rubber with an anti-friction washer made of nylon.
