

BATTERIES

- To access battery compartment, gently slide the back and front panels apart.
- Dispose of old batteries properly and insert new batteries correctly, as shown.
- Reattach panels

LIGHT MODES

- Remove the back cover to change the light mode.
- Select either HIGH, LOW or OFF and replace cover.

HIGH (30 lumens)
15 seconds*
7 meters

LOW (8 lumens)
15 seconds*
4 meters

*Light will turn on for a minimum of 15 seconds and will deactivate once motion ceases.

INSTALLATION

- Make sure the selected surface area is clean before attaching the light.
- Remove the first protective cover from the double-side mounting tape and attach the tape strip to the light.
- Remove the remaining protective cover and attach the light to the desired location.

NEBO

MOTION SENSOR NIGHT LIGHT

Perfect for hallways, closets and stairways – any area that needs hands-free automated lighting. The battery operated Motion Sensor Night Light turns on automatically if any movement is detected and turns off 15 seconds after motion ends. The smart sensor prevents the light from turning on during daylight hours.

ITEM# NEB-WLT-0026

QUALITY GUARANTEE

This product is guaranteed against all defects in workmanship and materials for the original owner for one year from the date of purchase. Damage to or failure of the flashlight or any component thereof due to alteration, misuse, battery leakage or lack of maintenance will void any and all guarantees. Damage by leakage of batteries should be taken up with the manufacturer of the battery using their damage claim instructions. For any additional information call 1-800-255-6061.
