

Tool Crib's Open Gear Lube is a heavy duty black lubricant that offers superior lubricity and adhesion to gears. It improves gear efficiency and will not dry out or leave harmful deposits. Open Gear Lube is unaffected by salt water, detergents, and most chemicals. It performs well under extreme pressures and temperatures. An extension tube is furnished for pinpoint application.

FEATURES & BENEFITS

- Ideal for open gears, cams, slides, roller chains, slow moving bearings, latches and construction equipment
- Resistant to salt water, detergents and most chemicals
- Protects against corrosion and metal-to-metal friction
- Reduces wear

PRODUCT SPECIFICATIONS

Part No. 620-1501

Size: 20 oz. Can / 15 oz. Net Wt.

Case Pack 6
