

WARNING

IMPORTANT! READ and follow these instructions carefully and keep for future reference.

Room & Bath Thermometer

- Auto shut off to save batteries power after 30 minutes.
- While on, thermometer will continue to re-check and adjust room and water temperature every 10 seconds.

To Change from Celsius to Fahrenheit:

Press C/F button to change from Celsius to Fahrenheit.

To Clean:

Wipe clean with soft damp cloth. If required, use mild detergent. Dry well.

Room Thermometer

To Use:

1. Turn thermometer on by pressing "on/set" button.
2. Wait 10 seconds to read temperature.

Bath Thermometer

To Use:

1. Swirl bath water to ensure an even temperature distribution.
2. Turns "on" automatically in the water. Wait 10 seconds to read temperature.
3. Adjust water to reach desired water temperature before putting child in bath.

To Change High Temperature Alert Settings:

High temperature alert is preset to 38°C / 100°F, but you can choose to change setting between 37°-40°C / 99°-104°F.

1. Press "on/set" button and hold for 2 seconds.
 2. Press (+) to set to desired alarm temperature. If water temperature is above set high rating a RED light will flash. Flashes GREEN when water is below 30°C / 86°F.
- This feature is only functional when thermometer is in water.

- X** ON/SET
- Y** CLOSE
- Z** OPEN

CAUTION

To prevent battery leaks, which can burn skin and eyes:
 Remove batteries when storing product for a long time.
 Discard old batteries promptly in accordance with local laws and regulations.
 Always replace the entire set of batteries at one time.
 Never mix old and new batteries, or batteries of different brands or types.
 Always check water temperature manually in addition to using this thermometer.
 Never leave children unattended in the bathroom.
 There is no substitute for proper adult supervision.
 Only use this product fully assembled and in accordance with instructions.
 When using the thermometer in water ensure the battery door is fully closed.
