STUD SUPPORT

EASY INPUT ACCESS

The TV brackets of RCTE290 extend up to 6" giving you room to access cables at the rear of a TV – something standard tilt mounts can't do.

EASY INSTALL & SERVICE

Just as easy to install as a tilt mount, but with way more features. Because you have easy access to the back of the TV at any time, there's no need to remove the TV when your client needs an update.

ENHANCED VISIBILITY

The design of RCTE290 lets customers pan their TV up to 8 degrees left or right. With the ability to tilt forward 12 degrees or backward 2 degrees they'll be able to position their TV perfectly for comfortable viewing.

PERFECT PLACEMENT

Oversized TV brackets have holes spaced to 450 mm versus the standard 400 mm on most TV mounts letting you dial in the vertical position of the TV. Fine adjusting post-installation leveling is included for a professional looking end result.

SPACIOUS OPEN WALL PLATE

A spacious open wall plate allows you to mount over electrical outlets or media boxes for clean cable routing. It's wide enough to accommodate stud spacing up to 24" allowing you to shift your clients' TV for perfect horizontal adjustment.

Features and Specifications

- Fits most TVs from 45" to 100"
- Supports TVs up to 150 lb (68.2 kg)
- Accommodates VESA sizes from 100x100 to 600x450
