- Boosts performance for iPhone™, Samsung™, Android™ and other phones and mobile devices
- Compatible with mobile phones and devices operating on Verizon 4G LTE, CEL (800 MHz and PCS (1900 MHz)
- Extends phone battery life - phone uses less power when the indoor signal is stronger
- Intelligent LED indicator confirms proper functioning
- Everything you need is included: amplifier base unit, indoor antenna, power supply, 50 ft. of RG-6 cable, external antenna and mounting hardware

ZBC3500 zBoost PRO 3500 69 dB

Benefits include:

- High performance dual band signal booster - coverage up to 3,500 sq. ft. (up to 69 dB system gain)
- Ideal for buildings with reliable outside signal
- Reduces dropped and missed calls and provides faster 3G data performance for multiple simultaneous users
- Boosts performance for iPhone™, Samsung™, Android™ and other phones and mobile devices
- Automatically operates at maximum gain – no manual adjustments needed
- Intelligent LED indicator confirms proper functioning
- Everything you need is included: amplifier base unit, indoor antenna, power supply, 50 ft. of RG-6 cable, external antenna and mounting hardware

PRO 7500
77 dB

Benefits include:

- High performance dual band signal booster - coverage up to 7,500 sq. ft. (up to 77 dB system gain)
- Ideal for buildings with marginal to reliable outside signal
- Indoor dome ceiling mount antenna provides omni-directional coverage
- Reduces dropped and missed calls and provides faster 3G data performance for multiple simultaneous users
- Boosts performance for iPhone™, Samsung™, Android™ and other phones and mobile devices
- Automatically operates at maximum gain - no manual adjustments needed
- Extends phone battery life (uses less power if stronger signal)
- Intelligent LED indicator confirms proper functioning
- Everything you need is included: amplifier base unit, indoor dome antenna, power supply, 50 ft. and 15 ft. of RG-6 cable, high-gain external antenna and mounting hardware
