SINGLE STUD
WALL PLATE

LOW PROFILE DESIGN

With a unique tilt head designed to nestle within the frame, RCAS160 TV mount lets your customers push their TV within 2" of the wall.

FULLY ADJUSTABLE

RCAS160 TV wall mount can be tilted forward 12° or backward 2° and swivel up to 80° in either direction. Post-installation horizontal leveling lets you dial in your clients' TV perfectly.

SAFETY FIRST

By passing rigorous third-party standards defined by UL, RCAS160 provides peace of mind and guarantees your customers' safety in the home or in public.

MADE FOR PROFESSIONALS

The RCAS160 full motion mount comes with wall plate covers to hide any sign of installation, and a durable all-metal cable management system intended to last for years and prevents service calls.

FITS IN A TIGHT SPOT

The single arm design gives RCAS160 a smaller than usual wall plate. Measuring in at 3.5" wide by 6.7" tall, it's perfect for tight spaces when working between outlets or cabinetry.
