## THE ONE FOR CELLULAR ENERGY AND STRESS RESILIENCE

### From Dr. Shade , Quicksilver Scientific Founder

*"The body requires energy for everything it does – and this energy comes from your mitochondria, the energy-generating factories of cells. Stress, toxins, and lifestyle habits impede energy production wearing down mitochondria. The One is a patented blend of targeted nutrients to support the health and function of the mitochondria and a combination of adaptogenic herbs to support stress resilience and the smooth utilization of energy. We designed it as your go-to energy and stress supplement—so you can show up at your best, every single day."*
