

The Standard by which all others are judged

Rated #1, Zip-in® screws are the best selling sheet metal screws worldwide

Zip-in's® sophisticated heat treat process allows the screw to taper to a fine, sharp point without sacrificing critical point strength. A single starting thread (A) is machined down to the very tip of the point and is the source of Zip-in's® penetrating power. The second thread (B) above the point engages after initial penetration and moves the screw through very fast. Zip-in® screws are faster driving, with a greater capacity for fastening heavier gauges of sheet metal than any other self-drilling type.

The Perfect System for Zip-in®

Cleanable, Reversible, Magnetic Hex Chuck

1. Burr Free Hex Washer Slotted Head

- One 1/4 in. hex driver accommodates all sizes of Zip-in Screws.
- Full 1/4 in. (No. 8) head will not strip out of hex driver opening at any time during operation.

2. Undercut-Indented Hex Washer Slotted Head

- Undercut - Always seats flush.

3. Combination Lead Double Thread

- Starting thread machined down to very tip of screw point.
- Instantly penetrates and engages in heavy gauge sheet metal and layered light gauge.

4. Sharp Tapered Point

- Quality controlled heat treat.
- Sharp tapered point will not mushroom, break, or walk.
- Complete operator control with precise hole alignment.
