

HP21-250P

*Cold Water, Petrol with
Electric Start.*

Specifications

- 250 bar (3626 psi) pump pressure
- 21 Litres Per Minute pump volume
- GX630 Honda petrol engine
- Electric Start
- 1450rpm low speed pump
- Heavy duty machine

Standard equipment

- Compact Base Mount (CBM)
- Stainless-steel heavy-duty skid
- Interpump brass head pump
- Inlet water filter
- VRT3 Unloader valve
- Industrial Gun and Lance
- Operating and Maintenance manual

Features

Interpump with ceramic pistons and brass head

SPTIWATER Oz-tuff belt drive

Inlet water filter

Pressure gauge

Heavy duty stainless steel skid

Anti-vibration engine mounts

Benefits

Non-corrosive pump head for longer pump life and lower maintenance costs

Efficient and reliable transfer of power, needs 15% less power to drive, uses less fuel

Stops debris from scoring pistons and seats

Easily monitor pump performance

Corrosion resistance and narrow footprint for longer life and easy fit for trailers and vehicles

Absorbs engine vibration for better performance and longer machine life
