

BRIDGEPORT

RIGID AND IMC CONDUIT BODIES

Rigid and IMC Conduit Bodies

Bridgeport rigid conduit bodies provide easy access to the interior of conduit systems for inspection, wire pulling, splicing, and maintenance. Equipped with a zinc-plated steel cover and neoprene gasket, they protect inner wiring from dust, dirt, and wet conditions. Made from malleable iron and assembled with stainless steel screws, these bodies offer superior impact, abrasion, and corrosion resistance. NPT threaded entries allow direct threading of rigid and intermediate metal conduit.

Certifications & Standards

- UL Standards: 514A, 514B
- CSA Standard: C22.2 No. 18.3
- NEMA Standard: FB-1
- c(UL)us File No. E11077

TYPE-C

Type C conduit bodies join Rigid/IMC conduit in long straight runs.

CATALOG NUMBER	TRADE SIZE	UNIT QTY.	STD. PKG.	CATALOG NUMBER	TRADE SIZE	UNIT QTY.	STD. PKG.
C-61CG	1/2"	5	50	C-66CG	2"	1	6
