FUSE TESTING SUPERKIT

Convenient six-piece kit

3 Fuse Adapters to cover the majority of round and spade low voltage fuses

Eliminates wasted fuses

The Supco® Fuse Testing Superkit is a six piece kit that includes everything technicians need to test and troubleshoot low voltage circuits without wasting fuses. It's great for a variety of applications including furnaces, air handlers, boilers and is even automotive compatible.

The BRKPRO comes packaged in a convenient hard plastic case that fits all six components.
