

# TUBE CUTTERS

MalcoEdge™ tube cutters are engineered for clean, accurate cuts on copper, aluminum, and thin-wall steel tubing. Featuring a patented Smart Spring Design for consistent cutting pressure and titanium-plated cutting discs for extended life, this line ranges from compact service cutters to ratcheting kits and high-capacity models—built for control, durability, and jobsite efficiency.

## PATENTED SMART SPRING DESIGN

## TUBE CUTTER KIT

**TC1011**

### RATCHETING TUBE CUTTER KIT

*1/8"–7/8" Cutting Range*

The Ratcheting Tube Cutter Kit is engineered for clean, precise cuts in copper and aluminum tubing ranging from 1/8" to 7/8". Its innovative ratcheting mechanism delivers greater control and reduced effort, especially in tight spaces. Built for HVAC and plumbing professionals, this cutter ensures clean edges with minimal burring and includes a spare blade and compact case for added convenience and long-term performance.

- Ratcheting mechanism for controlled cutting
- Wide 1/8"–7/8" capacity
- Kit configuration (tool + spare blade)

**Replacement Cutting Wheels Available**
