

FROM CHIMNEY TO FOUNDATION,

A high performance sealant
for every project.

800-767-5656 • sashco.com

Who is Sashco Sealants?

Made in the USA

Located in Brighton, CO, we've manufactured high-performance caulks and sealants for over 80 years.

.....

Why do I need High-Performance Sealants?

You can't afford to do it twice.

Callbacks are expensive and caulking again is a waste of time.

Do it right the first time.

Follow Sashcoinc on

Now, what does High-Performance mean?

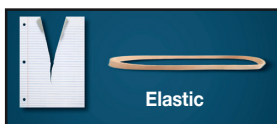

All Sashco Brands are trusted to not fail or let you down. That means the confidence that Sashco products work right the first time, every time.

Need more proof?

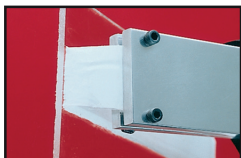

Highly Elastic

Sealants expand and contract with temperature changes

Great Adhesion

No more guessing if it will stay stuck to where you applied it

Paintable

Yes, even Lexel®!

Freeze-thaw Stable

Go ahead, leave it in your unheated shop or truck

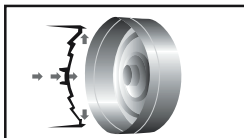

Sticks to Itself

No removal necessary — every Sashco product will stick to itself, and stick to each other

Stop-flow Plunger

Once the pressure is relieved, caulking won't continue to flow

Why do the Pros use Sashco?

Don't just take our word for it, read for yourself what other Pros are saying.

Big Stretch

"I had to re-caulk a bathroom window six times until I got Big Stretch, now one application is going five years strong."

Through the ROOF!

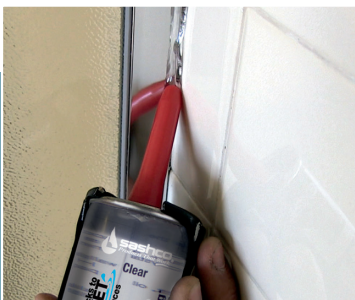

"Stopped my customer's leak while the roof was still wet. Really does what it says. Still there when I came back two years later. Incredible!"

Mor-Flexx

"Mortar in a tube that stays in-place, flexes and bends. Matches grout or stucco & easy to use."

LEXEL

"The best caulk you will ever purchase. Stays clear, bonds to nearly everything, and remains flexible. One example on a shower install: the Lexel held up for eight years, never yellowed, cracked or got brittle. I use it on everything from caulking seams to glass repair to showers. Superb product."

Windows • Doors • Siding • Trim

Big Stretch®

- **Elastic:**
expands and contracts with temperature changes and settling
- **Superior adhesion:**
sticks to a wide variety of building materials, including vinyl, aluminum, fiber cement, wood, and more
- **Easy to apply:**
smooth, easy-to-tool formula saves on labor time
- **Wide range of colors:**
13 colors, including clear, to achieve that seamless look every time
- **Soap & water clean-up:**
no special chemicals necessary
- **Spans gaps up to 2" wide**

Where to Use:

Use around doors, windows, siding, trim, molding, baseboards, and more.

10.5 OZ. Cartridges Available in Almond, Black, Clear, Dark Brown, Gray, Ironstone, Limestone, Pine Green, Redwood, Slate Gray, Tan, White, and Woodtone

Won't Crack ...
It Just Stretches

Kitchen & Bath

CleanSeal™

CleanSeal active enzyme caulk

Kitchen & Bath

Bio-based enzymes
actively powering your caulk

Eliminate build-up
of natural oils that feed mold

So mold can't grow
you never have to scrub again!

Enzymes in CleanSeal™ break down body oils, shower products, cooking oils and bacon grease that collect in the corners and create a feeding ground for mold. No food. No mold. No scrubbing for you. It's that simple.

• **No Mold:**

Active enzymes stop mold before it has a chance to grow.

• **Ultra-elastic:**

Moves with your house. Won't crack or tear.

• **Great adhesion:**

Won't pull away from bathtub (or any other surface).

• **Easy-to-use:**

With smooth application, quick water cleanup and no offensive smells.

• **Zero Risk:**

Satisfaction guaranteed, or we'll pay a contractor to fix it!

Where to Use:

Great for use in kitchens, bathtubs, showers, backsplashes, and sinks. Adheres to common building materials, including ceramic tile, fiberglass, acrylic sheet, glass, and more.

Available in 6 OZ. White and Almond Squeeze Tube and 10.5 OZ. White Cartridge

**No mold. No mildew.
No scrubbing needed!**

Multi-purpose

Lexel®

- **Instantly waterproof, sticks to wet surfaces:** seals active leaks immediately and permanently
- **Superior adhesion:** sticks to almost anything, including metals, concrete, brick, vinyl, PVC, and tile
- **Works year-round, just like you:** apply in temps down to 0°F and up to 120°F, in snow, sleet, and rain
- **Clearest clear available:** 19x clearer than silicone; disappears where applied; won't turn cloudy or yellow over time
- **Won't discolor copper or granite**
- **Cured sealant is mold and mildew resistant**

Where to Use:

Excellent in a wide variety of applications, including ductwork seams, bathrooms, kitchens, sills and thresholds, and more. Sticks to almost anything, including metals, concrete, brick, stucco, vinyl, PVC, and much more!

Available in 5 OZ. Squeeze Tube and 10.5 OZ. Cartridge in Clear and White*

* White not available in California

The Tough Elastic Sealant for Every Job

Roofs • Gutters • Flashing • Vents

Through the *ROOF!*®

- **Instantly waterproof, sticks to wet surfaces:** seals active leaks immediately and permanently
- **Lasts 20x longer than asphalt:** yearly (sometimes monthly) repairs are a thing of the past
- **Works year-round, just like you:** apply in temps down to 0°F and up to 120°F, in snow, sleet, and rain
- **Adheres to most existing patches:** permanently fixes failed repairs
- **Won't discolor copper:** keep those premium gutters and downspouts looking that way
- **Cured sealant is mold and mildew resistant**

Where to Use:

Perfect for roof repairs around flashing, gutters, vents, downspouts, skylights, and more. Adheres to a wide variety of roofing materials, including asphalt shingles, aluminum, tile, concrete, and more.

Available in 10.5 OZ. Cartridges, Clear, Black, and White*, Clear Quart, and Clear Gallons

*Black and White Low VOC not available in California

Seals Leaks that Asphalt Can't!

Mortar • Stucco • Stone • Brick

Mor-Flexx®

- **Textured and colored to blend-in:**
matches the look of stone, stucco, and mortar for an invisible repair
- **Won't slump:**
easy to apply and stays in place
- **Soap & water clean-up**
- **Spans gaps up to 3" wide**

Where to Use:

Tuck point chimneys, parapets and retaining walls without powders to mix or buckets to carry. Excellent for repairing cracks in and around stone, faux stone, stucco, mortar, brick, [remove retaining walls here] and other textured surfaces. Adheres to most building materials, including vinyl, metals, PVC, and more.

Available in 10.5 OZ. Cartridges in Gray, Beige, Charcoal, Ironstone, and White

Textured Like Mortar – Stretches Like Rubber

Sidewalks • Driveways Expansion Joints

Slab®

- **Sticks, stretches, & stays:**
Unmatched adhesion and elasticity create a lasting seal that won't require repeated repairs
- **Best low-temp durability:**
stretches in extreme temps, while the others crack and lose adhesion
- **Textured and colored to match concrete:** repairs blend-in
- **Spans gaps up to 3" with no slump**
- **No isocyanates:**
no harsh chemical smell
- **Soap & water clean-up:**
no special chemicals necessary

Where to Use:

Ideal for repairing cracks in concrete, sidewalks, driveways, thresholds, pool decks, expansion joints, steps, or any horizontal concrete surface.

Available in 10.5 OZ. Cartridge in Gray

The Serious Fix for Concrete Cracks

Moulding • Backsplashes Anywhere to Match Color

Tintable Caulk. Just Add Paint.

- **Easy to mix:**

simply add latex paint or water-based stain to create a caulk that matches exactly.

No special tools required.

- **Same performance as Big Stretch®:**

same elasticity, adhesion, and performance in the custom color you need.

- **Labor-saving caulk repairs:**

skip the painting step when repairing failed acrylic latex caulk. Simply apply custom-matched eXact color over top of the cracked caulk and be done.

- **Soap and water clean-up**

Where to Use:

Perfect for creating a clean line on custom-colored walls in common areas, as well as repairing cracks in stained cabinetry. Adheres to most building materials, including drywall, wood, tile, and more.

Available in a single DIY kit, or a 6-kit Contractor Pack
