

MALCOEDGE™

The Tools You Trust. The Edge You Deserve.

PRODUCT CATALOG

Built on the legacy of Malco Tools, MalcoEdge is crafted with HVACR professionals at the core. They're the reason behind every tool we design and every product we build. Their drive shapes our purpose and fuels our commitment to delivering solutions that meet the demands of the trade.

We don't just build tools. We build trust. Every tool stamped with the MalcoEdge name is the result of relentless innovation, rigorous testing, and a commitment to real-world quality.

When Trade Pros are up on the roof, inside a crawl space, or fighting the elements, they can count on MalcoEdge to deliver precision, strength, and reliability that never quits.

We know the job doesn't stop when it gets tough—and neither do we. From their first day of training to their last service call, MalcoEdge stands with HVACR pros—pushing boundaries, raising standards, and helping them stay ahead in the field.

HVACR Trade Pros are the backbone of every home, business, and community. They deserve tools that work harder, last longer, and make a real difference when it matters most. That's why we never cut corners, never compromise—and never stop innovating.

MalcoEdge isn't just about tools. It's about giving Trade Pros the edge they need to master the job, own the workday, and build the future.

PRODUCT
REGISTRATION

MalcoEdge™ Tube Tools are engineered for accurate cutting, forming, and preparation of HVACR tubing. Designed for professional-grade performance, these tools help technicians create clean bends, precise connections, and reliable system installations.

TUBE CUTTERS

Clean Cuts. Consistent Results.

Precision cutting tools designed to deliver smooth, accurate cuts across copper, aluminum, and other thin-wall tubing. Featuring a patented Smart Spring design that automatically maintains consistent cutting pressure, these cutters help produce clean cuts and proper-fitting connections with less effort.

SMART SPRING DESIGN

TUBE SWAGING AND FLARING TOOLS

Strong Joints. Accurate Flares. Reliable Seals.

Precision tools for expanding tubing and forming accurate flares—helping reduce fittings, improve joint strength, and deliver reliable, leak-resistant HVACR connections.

CATALOG #	DESCRIPTION
FLSW2N1	2-in-1 Flaring/Swaging Kit
EFLT	Eccentric Flaring Tool
DPFL	Drill Powered Eccentric Flaring Tool
FSG	Tube Flare Sizing Gauge

TUBE REAMERS AND DEBURRING TOOL

Clean Finishes. Better Performance.

Built to prepare tubing for professional results, these tools remove inside and outside burrs quickly and efficiently. The lineup includes the Turbo Tube Reamer System for fast drill powered tube prep and clean, consistent finishes.

CATALOG #	DESCRIPTION
TR	HD Tubing Inside/Outside Reamer
TTR	Turbo Tube Reamer Drill Attachment
TTRK	Drill Powered Turbo Tube Reamer Kit
DTS	Manual Deburring Tool

HVACR KITS

TurboFlow™ Vacuum Kits

Packed in a Veto® Pro Pac Hose Hauler Bag

MalcoEdge TurboFlow Vacuum Kits are built for Trade Pros who need faster evacuation and efficient workflows. Each kit combines high-flow components, reliable system control, and organized storage—so you can get in, get out, and get the job done right.

TOOL SPECS

HOSES, FITTINGS & ADAPTERS

MalcoEdge™ HVACR Hoses are engineered for charging, recovery, and deep-vacuum applications. Built for professional use, these hoses are designed to reduce refrigerant loss, improve service efficiency, and deliver reliable performance in real jobsite conditions.

The lineup includes Safe Seal™ hoses for added safety, Easy Seal™ hoses for smooth, leak-resistant connections, and TurboFlow™ high-flow hoses designed to speed up recovery and evacuation—giving HVACR Trade Pros the right solution for every service call.

SAFE SEAL HOSES

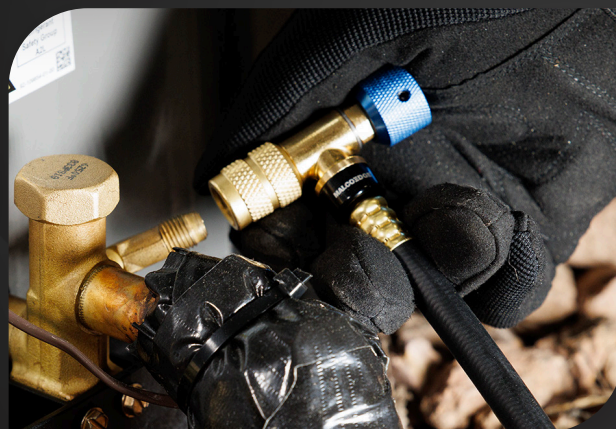

Cleaner Disconnects. Added Protection.

Low-loss design helps securely contain refrigerant during connection and disconnection by separating flare sealing from core depression, improving safety and maintaining system integrity. Triple-ring crimp construction provides added durability and long-lasting performance.

SAVE YOUR FINGERS!

CATALOG #	DESCRIPTION
SS3614	Safe Seal Hose Set – 3-Pc, 36" Charging Hoses, 1/4"x 1/4"
SS3614516	Safe Seal Hose Set – 3-Pc, 36" Charging Hoses, 1/4"x 5/16"

HOSES, FITTINGS & ADAPTERS

Professional-grade adapters and fittings designed to expand connection options, improve service access, and support efficient HVACR system maintenance and diagnostics.

HFYV38

HFY38

HFY14

HFY12

HI-FLOW Y BRANCHES

High-flow fittings designed to improve evacuation and recovery performance while reducing restriction.

- Y-design supports faster evacuation and multi-hose configurations.
- Available with integrated ball valves for greater flow control.
- Vacuum-rated to 20 microns with durable anodized aluminum construction.

CATALOG #	DESCRIPTION
HFY38	Hi-Flow Y Branch 3/8" x 3/8" x 3/8"
HFY14	Hi-Flow Y Branch 1/4" x 3/8" x 3/8"
HFY12	Hi-Flow Y Branch 1/2" x 3/8" x 3/8"
HFYV38	Dual-Valve Hi-Flow Y Branch 3/8" x 3/8" x 3/8"

CORE CONTROL DEPRESSOR TOOLS

Compact tools that provide controlled valve core engagement when high-flow core removal isn't practical.

- Helps reduce uncontrolled refrigerant release during service.
- Compact profile fits restricted access areas.
- Vacuum-rated to 20 microns with an 800 psi maximum working pressure.

CT14

CT516

VACUUM-RATED ACCESS T-FITTINGS

Service fittings that expand access and allow multiple tools to connect to a single port.

- Supports multiple hose and tool configurations.
- Built for tight service areas and everyday use.
- Durable aluminum body with brass fittings, vacuum-rated to 20 microns and 800 psi working pressure.

CCD14

CCD516

SEAL KIT

Restore sealing performance and extend tool life with replacement seals for MalcoEdge™ Hi-Flow Y fittings and core tools.

ATSK1

CATALOG #	DESCRIPTION
CT14	Hi-Flow Access T-Fitting 1/4" x 1/4" x 1/4"
CT516	Hi-Flow Access T-Fitting 5/16" x 1/4" x 5/16"

CCD516	Hi-Flow Core Control Depressor Tool 5/16" x 5/16"

CATALOG #	DESCRIPTION
ATSK1	Aluminum Hi-Flow Ys and Core Tools Seal Kit

VACUUM PUMPS

MalcoEdge Vacuum Pumps deliver reliable evacuation performance with portable, jobsite-ready designs built for today's HVACR service needs. Paired with premium vacuum pump oil, these solutions help technicians achieve efficient evacuation and maintain long-term pump performance.

VACUUM PUMPS

Portable Power. Reliable Evacuation.

Jobsite-ready vacuum pumps built to deliver dependable evacuation performance—especially where power access is limited or mobility is critical.

- A2L & A3 compatible design with a 16ft power cord
- Integrated auto-shut off solenoid on all pumps prevents vacuum loss in case of power loss
- Ultra portable, 6.8 lb, battery-powered COLT2 works with all 4 top power tool brand batteries

CATALOG #	DESCRIPTION
COLT2	18v vacuum pump, 2.0 Cfm, a2l/a3
EF14	Elite flow vacuum pump, 1.4 Cfm, a2l/a3
EF53	Elite flow vacuum pump, 5.3 Cfm, a2l/a3

VACUUM PUMP OIL

Protect Performance.
Extend Pump Life.

High-quality vacuum pump oil formulated to support efficient operation, protect internal components, and maintain consistent evacuation results.

CATALOG #	DESCRIPTION
VPOG	Vacuum Pump Oil 1 Gallon (6 pack)
VPOQ	Vacuum Pump Oil 1 Quart (12 pack)

RECOVERY PUMP

MALCOEDGE™

MalcoEdge Recovery Units are built for fast, efficient, and dependable refrigerant recovery across a wide range of HVACR systems. Designed for A1, A2L and A3 refrigerants and demanding field conditions, these professional-grade machines help technicians recover refrigerant safely and efficiently on every job.

VELO-X TWIN RECOVERY UNIT

Professional-grade Recovery

- Lightweight 30 lb. unit delivering strong performance from its 1.25 HP Brushless DC variable-speed motor
- 16.4ft (5m) hard wired cable & spark-proof switch for hazardous area safety
- Auto high pressure (550 psi) and low pressure (10" Hg vacuum) shut off switches
- Power switch illuminates and provides system feedback with color and blink codes
- High-speed (0.71 lb/min vapor, 9.03 lb/min liquid with R22), twin-cylinder refrigerant recovery machine engineered for safe, efficient recovery of A2L and A3 refrigerants in residential and commercial HVAC systems
- Oil free compressor with self-purge function for full removal of refrigerant from the recovery machine
- Carrying strap included for easy transport

CATALOG #	DESCRIPTION
MERU2	Velo-X Twin Recovery Unit

MANIFOLDS

MalcoEdge™ Manifolds are built for precision, safety, and dependable control when servicing HVACR systems. Designed for both modern A2L refrigerants and traditional multi-gas applications, these professional-grade manifolds deliver accurate performance and Trade Pro efficiency on every job.

A2L MANIFOLDS

Built for Modern Refrigerants. Designed for Control.

Engineered for servicing A2L systems, these manifolds deliver precise valve control, clear flow visibility, and hands-free convenience. They are compatible with R32, R454B, and R410A refrigerants—helping technicians service today's systems safely and efficiently.

MULTI-GAS MANIFOLDS

Reliable Performance Across Proven Systems.

Designed for traditional refrigerants, these manifolds provide durable construction, smooth valve operation, and dependable accuracy for everyday HVACR charging, and diagnostics. Compatible with R22, R134A, R404A, and R407C

CATALOG #	DESCRIPTION
M2VKA2L	A2L 2 Valve Manifold Kit- R32, R410A, R454B with 5/16" Parking Spots
M2VA2L	A2L 2 Valve Manifold - R32, R410A, R454B with 5/16" Parking Spots
M2VKMG	Multi-Gas 2 Valve Manifold Kit- R22, R134A, R404A, R407C

MalcoEdge™ Measuring Equipment delivers accurate, dependable data for critical HVACR service tasks. Designed for temperature monitoring, vacuum verification, and refrigerant leak detection, these professional-grade tools help technicians diagnose system performance, verify results, and service equipment with confidence.

DIGITAL THERMOMETER

Monitor Conditions. Respond with Confidence.

Designed for accurate temperature tracking with clear displays and alarm alerts to help technicians maintain safe and optimal system operation.

DIGITAL VACUUM GAUGE

Verify Evacuation. Eliminate Guesswork.

High-accuracy vacuum measurement tool built to confirm proper evacuation and support confident leak testing and system verification.

REFRIGERANT LEAK DETECTOR

Pinpoint Leaks. Diagnose with Certainty.

High-sensitivity detection tool designed to quickly locate refrigerant leaks and support efficient diagnostics, preventative maintenance, and reliable system service.

CATALOG #	DESCRIPTION
DAT392	Digital Alarm Thermometer
DVG1	Digital Vacuum Gauge
LDPF	ProFind Refrigerant Gas Leak Detector

SERVICE TOOLS

MalcoEdge™ Service Tools provide precision, control, and reliability for critical HVACR service tasks. Designed for accurate installation, diagnostics, and system servicing, these professional-grade tools help technicians work with confidence.

DIGITAL TORQUE WRENCH

Precision Torque. Installation Confidence.

Designed to deliver accurate, repeatable torque for critical HVACR fastening and installation applications.

SOLENOID SERVICE MAGNET

Manual Control. Faster Diagnostics.

Compact service tool designed to manually operate solenoid valves—supporting efficient diagnostics, recovery, and system service.

INSPECTION MIRROR

The MalcoEdge Inspection Mirror allows Trade Pros to visually inspect areas that are otherwise out of direct line of sight. Ideal for checking the backside of braze joints, fittings, and connections, this tool helps confirm proper workmanship and identify potential leaks.

CATALOG #	DESCRIPTION
SMG	Solenoid Service Magnet
DTW	Digital Torque Wrench
IM1	Inspection Mirror

ONE PARTNER. COUNTLESS SOLUTIONS. BUILT FOR THE TRADES.

The Malco Group simplifies work for the trades by bringing together the HVACR and building construction industry's most relied upon products and bundled solutions to fill the back of the trade pros' van.

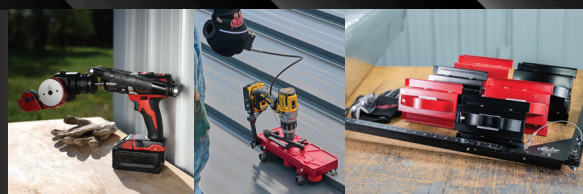

Our expansive and ever-growing portfolio includes tools, condensate management, refrigeration, chemicals, and worksite solutions—all of which are engineered for jobsite performance and built to last.

By bringing these categories together under one trusted supplier, we simplify how distributors do business by offering an extensive line-up of products from one partner, making it easier to do business and to offer your customers more options without the hassle.

Backed by solid training and outstanding customer support, we give you everything you need to handle any job quickly and confidently, the first time.

Let's get the job done faster, smarter—together.
