

The Sealant Made for Log Structures

Log Builder®

Tan

Woodtone

Dark brown

Also available in
Clear

For a great color selection, use Sashco's Conceal® textured caulk for wood. It's lightly textured to mimic the texture of wood grain and available in colors to complement the most popular wood stain colors.

The Sealant Made for Log Structures

Log Builder®

Great for use on interior and exterior:

- Log cracks and checks
- In between log courses
- As a stacking aid during construction
- Adheres well to most building materials

Plus, Log Builder is:

- **Ultra elastic** — absorbs most log movement. Won't crack, peel, or pull away to keep water, dust, bugs, and wind from seeping into your home
- **Water-based** — easy on skin, eyes, and noses
- **Easy to apply** and tool
- **Easy to clean up** with soap and water

Slight color variations can occur between the color chips and the actual product.

Log Builder Coverage Rates

Joint Width	Recommended Joint Depth	Per 5 gallon pail	Per 30 oz. cartridge	Per 10.5 oz. cartridge
1/4"	1/4"	1540'	70'	26'
