WIRE PULLING PRODUCTS

PRODUCT BROCHURE

WIRE PULLING PRODUCTS

Slyder® wire pulling products make it simple to run cables through conduit in any circumstances. We have the professional solutions you need for varied installations. When coupled with Slyder wire pulling lubricant, our pull line and pull tape make wire pulling easier than ever.

PULL LINE

Pull Line is the professional choice for pulling lightweight cable through conduit. Made from a durable and lightweight polypropylene, our pull line is designed to be easy to blow through the conduit, threading from a center-pull coil. It features a blue or red tracer line and is naturally resistant to mildew, rotting or tangling.

PULL LINE	SKU	TENSILE STRENGTH	LENGTH	UPC
	RWP-210-65B	210 lbf	6500 Ft	662381373373
RWP-500-22B	500 lbf	2200 Ft	662381373380	

PULL TAPE

Choose Pull Tape when pulling heavy cables through conduit. This tape features an abrasion-resistant low-friction design that makes it easier to use and is made from strong and lightweight premium-grade polyester. The precise and legible printed length measures make determining progress simple.

PULL TAPE	SKU	TENSILE STRENGTH	LENGTH	UPC
	RWP-1250-15B	1250 lbf	1500 Ft	662381373397
	RWP-1250-30S	1250 lbf	3000 Ft	662381373403
	RWP-1800-15B	1800 lbf	1500 Ft	662381373410
	RWP-1800-30S	1800 lbf	3000 Ft	662381373427
	RWP-2500-10B	2500 lbf	1000 Ft	662381373434
	RWP-2500-30S	2500 lbf	3000 Ft	662381373441

LUBRICANT

Slyder Wire Pulling Lubricant helps with pulling line and tape through conduit in any installation. We have three different sizes of Slyder available depending on your needs. Choose this chemically stable, high-performance lubricant to make sure your residential, commercial and industrial installations go by smoothly. Save time by choosing tools that make each installation faster and easier!
