

PRESSURE CLEANERS

Made in Australia
SINCE 1982

HC15-275P

Cold Water Cleaner

Specifications

- ⇒ 275 Bar (3989 psi) pump pressure
- ⇒ 350 Bar (5076 psi) EWE turbo pressure (optional)
- ⇒ 15 Litres Per Minute pump volume
- ⇒ 13 hp Honda petrol engine
- ⇒ 3400 rpm Interpump pump
- ⇒ Medium duty machine

Standard Equipment

- ⇒ 8 Metre high pressure hose
- ⇒ Insulated on/off pistol assembly
- ⇒ Double lance assembly
- ⇒ High and low pressure mode
- ⇒ Adjustable chemical injector
- ⇒ Operating and Maintenance Manual

Features	Benefits
Interpump with ceramic pistons and brass head	Non-corrosive pump head, longer pump life and lower maintenance costs
Inlet water filter	Stops debris from scoring pistons and seals
Pressure gauge	Easily monitor pump performance
3-stage powder coated and zinc annealed chassis, ergonomically designed handle with 2 pneumatic wheels	Resistant to corrosion and greater manoeuvrability over tough terrain
Thermal safety protection valve	Protects pump from over heating
