FEATURES

Amigo is an Architectural grade integrated LED recessed lighting collection featuring an ultra modern design and high-power light engine. There are two light aperture sizes to choose from; 2" 15w or 5" 26w making them suitable for use in ceilings ranging from 8'- 20' in height. Amigo luminaires are available in single light round or square body shapes as well as multiple head rectangular design. Simple yet popular ordering options such as trim or trim less installation, downlight or gimbal modules, 3000K or 3500K light engines make the collection easy to understand and specify. With quality internal components the Amigo collection is every bit as reliable as it is aesthetically appealing and highly functional.
