SERIES

Ultra Low-Profile Tilting TV Mount

PRODUCT DESCRIPTION

Engineered for minimalism, PT405 tilting TV mount sets the bar for low-profile installations. At just 0.7" from the wall, it provides a strikingly thin silhouette more akin to a hanging picture than a wall-mounted TV. PT405 accommodates some of the largest TVs available with a 125 lb capacity and 800x600 VESA support. Its 32" wide wall plate offers mounting to two or three studs, while 1.6" of vertical height adjustment and horizontal shift ensures displays are perfectly leveled and positioned. PT405 can be tilted forward 10 degrees to keep glare in-check, or tilted back with the kickstand deployed for easy access to ports and cables. PT405 is backed by our 10-year Pro Series warranty, and delivers pro-grade installations with a remarkably slim design.
