FBSN

Slide weight and wire-form stand!

For in-floor radiant heating installation.
Design includes magazine slide weight and stand.

Operates from a standing position! Lightweight one-piece polymer magazine stands up to any job-site environment. A leaf spring controlled stop automatically adjusts to guide staples through the fastening mechanism without risk of jamming or deforming. Magazine loading-strips of 25 staples are joined together with a discreet plastic weld that allows staples to separate cleanly as they are engaged by the fastening mechanism. A magazine slide weight ensures smooth feed and uninterrupted stapling when laying out PEX. Sturdy, retractable wire-form stand allows stapler to stand upright when not in use or when reloading staples. Compatibility: Malco Foam Board Stapler and Staples (FBSN, FBSN1 & FBSN2) are compatible with most popular brands of foam board stapling systems. Malco 1-1/2 in. (38.1 mm) staples are designed for 1 in. (25.4 mm) foamboard. Additional Barbs on 2 1/2 in. (63.5 mm) Staple "Double the Holding Strength" in 2 (50.8 mm) foamboard.

Slide weight for easy feeding
