

# Fiber Cement Siding Angle Cutter

**Work. Perform. Outlast.**  
Limited Lifetime Warranty

Cut multiple angles in Fiber Cement Siding with Guillotine Precision and Minimal Dust!

Quickly & Cleanly Produce (3/12, 4/12, 6/12, 8/12, 10/12 or 12/12) pitch cuts and most other angles, in fiber cement siding.

Scribe desired angle on fiber cement siding plank and feed it into the guillotine blade as you cut.

◀ Long-life nickel plated blade design with high leverage handle requires less force to produce clean cuts and minimal air-borne dust.

Large guillotine work plate and open throat allows clearance for cutting any angle in 5/16 in. (8 mm) fiber cement planks up to 12 in. (305 mm) wide.

FCC7

Stable welded frame will ▶ survive the most rugged job-site environments.

◀ Fold-out feet act as support extensions for the cutting operation and also allow guillotine to be mounted on saw horses for optional workbench-level operation.

A 90° guillotine fence is quickly installed to the left or right of blade for cutting siding planks to length.

Loosen knob to swing fence out of the way for angled cuts.
