Optimized Power Curve™

Smart Power Control™

Anodized Aircraft-Grade Aluminum

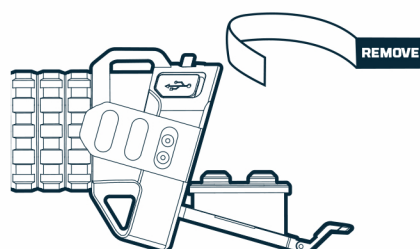

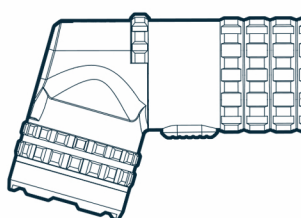

Optimized Power Curve™ uses battery power efficiently in order to provide a more even and consistent light beam.

Smart Power Control™ creates a seamless transition through light modes to extend battery life.

Before You Begin

This unit uses a battery spacer during shipping. Remove the battery spacer before operation.

To access the battery, unlatch the battery compartment at the back of the unit.

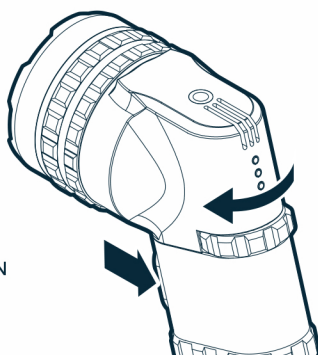

After removing the battery spacer, insert the battery positive (+) side first.

Operation

Rotate Mode Select Dial to cycle through light modes:

- Lock
- Spot
- Flood
- Red

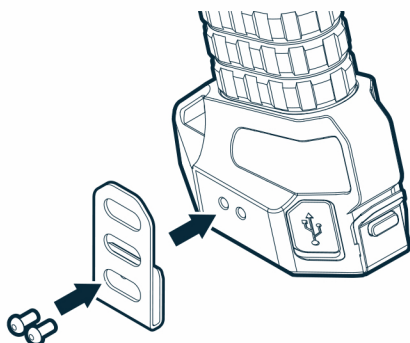

Press & release Power Button to turn the unit ON and OFF.

Belt Clip

The Belt Clip is designed so that it can be mounted on either side of the base.

Simply screw the Belt Clip in the desired position.

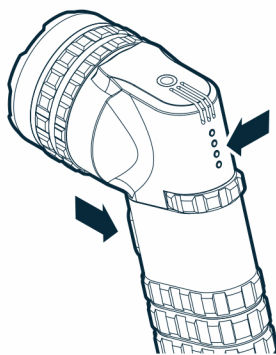

Power Indicator

This product uses 4 LED lights just above the Mode Select Dial.

Press the trigger button while Mode Select Dial is in the Lock position to show battery life.

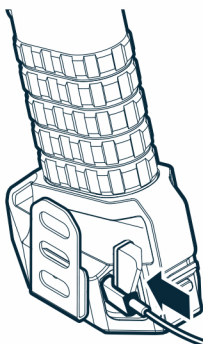

100% battery: 3 green, 1 red
75% battery: 2 green, 1 red
50% battery: 1 green, 1 red
25% battery: 1 red

Rechargeable

Use the included charging cable to recharge the unit.

When the unit is plugged in and charging, the last indicator light will flash.

When charging is complete, all indicators will light continuously.

PRODUCT GUARANTEE

If you experience a problem, please do not return to your local store.
