

Gutter Outlet Punch

Work. Perform. Outlast.

Limited Lifetime Warranty

For cutting downspout drop holes in K-style aluminum gutter, nothing else matches the speed and accuracy of the Malco Gutter Outlet Punch System.

A versatile, lightweight Malco Tool Frame accepts your choice of separate Malco Rectangular and X-style Punch and Die combinations, including a 3 x 4 in. (76 x 102 mm) X-Style Punch and Die.

Use the lightweight aluminum and steel tool frame and a punch and die of choice, to cut a clean drop hole anywhere along the length of standard 5 or 6-inch K-style aluminum gutter up to .032 in. (0.81 mm) thickness. The tool frame's easy ratcheting mechanism, and angled blades of the punch, combine to provide smooth cutting action. A built-in ejector on the frame safely removes the metal slug from rectangular cuts. High carbon steel blades ensure long punch life, and the blades are also separately replaceable. Heat treated components and weather resistant finishes on both the tool frame and all punch and die assemblies ensure long service life. Fastener holes are provided in the tool base for bench-mount operation.

GOT

U.S. Patent No. 6,289,709

- Ejector built into Tool Frame safely removes metal slug from rectangular cuts.
- Punch blades are easily replaceable.
- Extra holes in base of Tool Frame allow for secure bench-mount operation.
