

## BATTERY INFORMATION

### » CHARGING

Remove the power bank from the zipper pouch. With the included USB charging cable connected to a power source, plug the other end into the power bank.

### » POWER BANK SPECS

10,000mAh with USB-A DC5V/2A Output

» **NOTE:** Only use power banks to power the product.

## OPERATING INSTRUCTIONS

### » MODE SELECTION

Press and hold the seatpad power button to turn on. When on, the power button will be backlit. Once on, each press of the button will cycle through each mode. Press and hold the power button to turn off.

### » TROUBLESHOOTING

If pressing the power button does not turn on the seat pad, ensure the power bank is on by pressing its power button, or try disconnecting and reconnecting the USB cable.
