

DOT 4 BRAKE FLUID

Overtime brake fluid degrades and oxidizes which can lead to sub-optimal brake performance and possible expensive repairs. Replacing used brake fluid with Full Throttle Dot 4 Brake Fluid, restores brake fluid to like new condition.

- ✓ Lubricates
- ✓ Features a Minimum Boiling Point (ERBP) of 465°F
- ✓ Prevents Corrosion
- ✓ Improves Seal Life and Performance
- ✓ Controls Viscosity over a Wide Temperature Range
- ✓ Minimizes Corrosion and Low Moisture Absorption
- ✓ Controls Proper Seal Swell
- ✓ Conforms to Federal Motor Vehicle Safety Standard No. 116, SAE J1703 and ISO 4925
- ✓ Compatible and Inter-changeable with DOT3
