

FULL MOTION CEILING MOUNTS

CM600

The CM600 TV Ceiling Mount is engineered to ensure a quick installation on both flat and sloped ceilings. Capable of swinging up to 90°, its telescoping extension pole provides 23" of height adjustment and 360° of rotation, allowing you to position your TV exactly where you want it. Along with adjustable leveling screws, its mounting brackets feature four discrete tilt options, giving you the ability to angle your TV independent of the pole. Tilt it up to 15° forward to improve line-of-sight, or 6° backward to compensate for potential lean. Unobstructed cable management is also provided through the entire length of the mount, keeping your cables safe and out of sight. Available in black and white.

FEATURES & SPECIFICATIONS

- Fits most flat panel TVs from 40" to 80"
- Supports TVs up to 110 lb (50 kg)
- Accommodates VESA sizes from 75x75 to 600x400

- Adjustable horizontal leveling
- Integrated cable management
- Anodized aluminum and solid steel construction with durable powder coated finish
- Includes manual and all mounting hardware for wood stud and concrete installation
- Five year manufacturer's warranty
- Shipping box weight: 20.9 lb (9.5 kg)
- Shipping Box Dimensions: 41.5" x 8.2" x 4.3" (105.5 x 20.8 x 11 cm)
- Product Weight: 19.8 lb (9.0 kg)
- UPC: 800152718590 - CM600
- UPC: 800152719122 - CM600W

TECHNICAL ILLUSTRATIONS

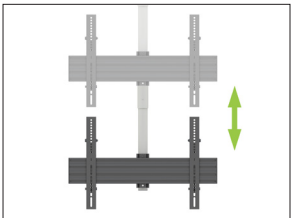

EASY INSTALLATION

The detachable mounting plate can be easily installed to any wood stud or concrete ceiling. Simply slide the extension pole into place and secure it to complete the installation.

ANGLED CEILINGS

Adjust the mounting plate up to 90° to account for sloped ceilings and support beams, or to install the mount vertically on a wall.

ADJUSTABLE HEIGHT

The telescoping extension pole provides up to 23" of height adjustment, ensuring your TV is positioned at an ideal level.

SWIVEL & TILT

Along with 360° of rotation, the CM600 offers four discrete tilt options. In 5° increments, angle your TV up to 15° forward to improve line-of-sight. To compensate for lean, the brackets can also be tilted 6° backward.

SLEEK CABLE MANAGEMENT

The extension pole's hollow core provides an unobstructed path to route your cables, while an opening in the mounting plate allows them to continue through the ceiling for a truly professional setup.
