Ultra Low-Profile Fixed TV Mount

PRODUCT DESCRIPTION

PF405 fixed TV mount sets the benchmark for low-profile, minimalist AV installations. With just 0.6" between the wall and your TV, it creates an impossibly thin profile that makes your display look more like a piece of art than a mounted screen. Designed for large TVs, PF405 supports up to 125 lb and accommodates VESA patterns up to 800x600. Its 32" wide wall plate spans two or three studs and offers horizontal shift, allowing for easy centering even when studs aren't perfectly aligned. Post-install adjustments include 1.6" of vertical height shift to precisely position your TV within recesses, cabinets, or tight spaces. Despite its fixed design, PF405 still offers easy access for servicing with quick-release arms and an integrated kickstand. Backed by a 10-year Pro Series warranty, PF405 combines sleek looks, stability, and serviceability.
