

NEW 8.5t Narrow Edge Lifting System

No 1 Choice for Builders

3DX™

More compact
than ever before.

Stronger Lifting, Smarter Construction.

Cost-Effective Lifting

Reduces panel damage and minimises additional reinforcement needs. System design reduces panel damage and lost time for rework.

Optimised for Dense Reinforcement

Narrow design eliminates installation conflicts.

Faster Panel Turnaround

Early strength lifting for quick installation, reducing downtime.

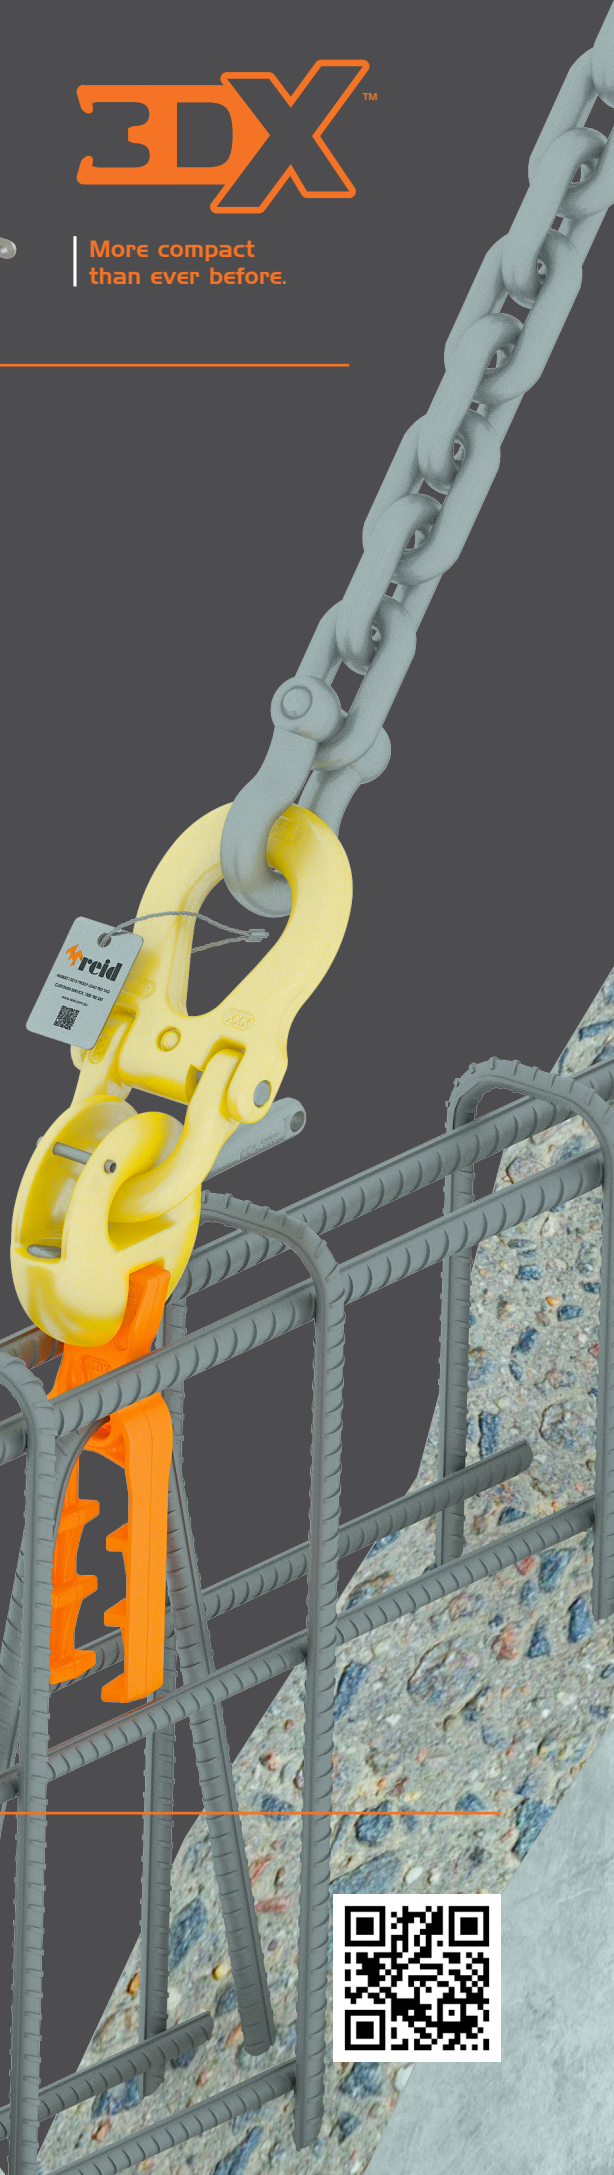

System Compliance

3Dx™ 8.5t Narrow Edge Lift Anchors comply with AS 3850.1:2024

Anchorshield™ Coating

Exclusive to Reid™. Prevents delamination from galvanic reactions, enables visual QA checks, and extends design life.

reid.com.au | 1300 780 250

NEW 8.5t Narrow Edge Lifting System

No 1 Choice for Engineers

More compact
than ever before.

Precision Engineering for Optimised Lifting.

Superior Load Performance

Designed for high tension and shear loads, improving anchor reliability.

Optimised for Dense Reinforcement

Compact form factor allows easy placement in tight grids.

Performance Data You Can Trust

Published performance data developed and certified by Reid Chartered Engineers.

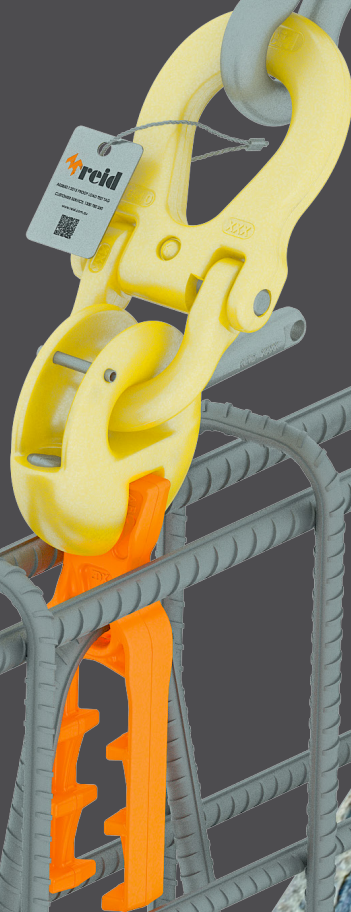

System Compliance

3Dx™ 8.5t Narrow Edge Lift Anchors comply with AS 3850.1:2024

Anchorshield™ Coating

Exclusive to Reid™. Prevents delamination from galvanic reactions, enables visual QA checks, and extends design life.

NEW 8.5t Narrow Edge Lifting System

No 1 Choice for Crane Operators

3DX™

More compact
than ever before.

Reliable Handling for Safer Lifting.

Smooth Clutch Engagement and Release

The anchor, clutch, and void work together to ensure easy fitment and seamless remote clutch release.

Assured Concrete Anchorage

Class leading performance even if the tension bar is omitted.

One Clutch, Two Anchors

Two anchor options with 8.5t and 10t, one universal clutch - reducing costs, maintenance, and recertification. Patented articulating design for improved handling.

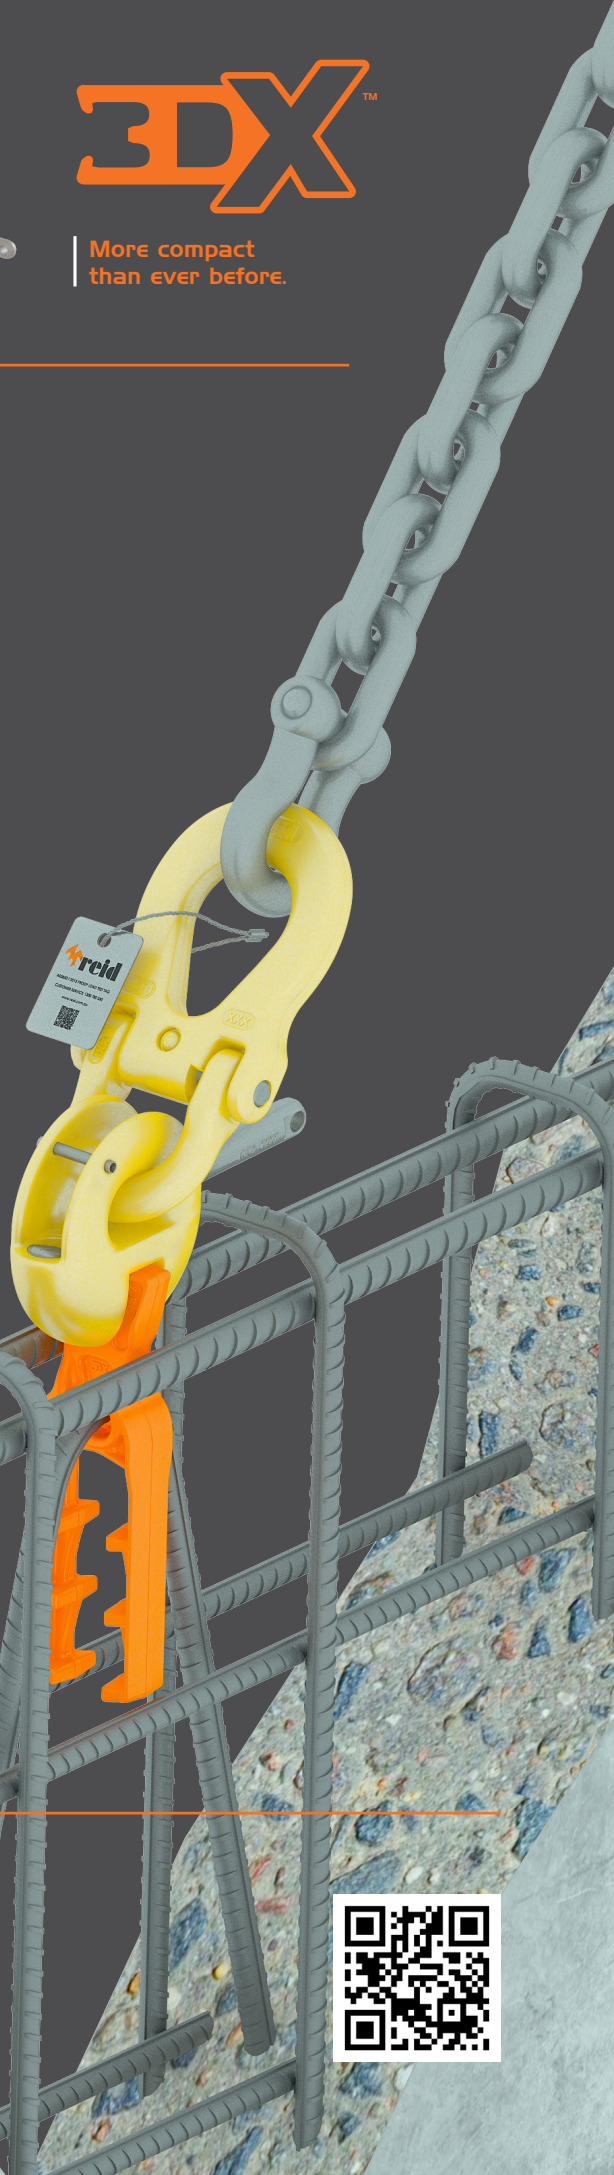

System Compliance

3Dx™ 8.5t Narrow Edge Lift Anchors comply with AS 3850.1:2024

Anchorshield™ Coating

Exclusive to Reid™. Prevents delamination from galvanic reactions, enables visual QA checks, and extends design life.

reid.com.au | 1300 780 250

NEW 8.5t Narrow Edge Lifting System

No 1 Choice for Pre-Casters

More compact
than ever before.

Lifting Made Easier for Precast Production.

Optimised for Dense Reinforcement

Narrow design eliminates installation conflicts in heavily congested panels..

Faster Installation

Patented pre-formed void fits snugly to eliminate slurry ingress.

System Integration

Designed to work effortlessly with the 3Dx™ 10t Articulated Lifting Clutch for precision handling.

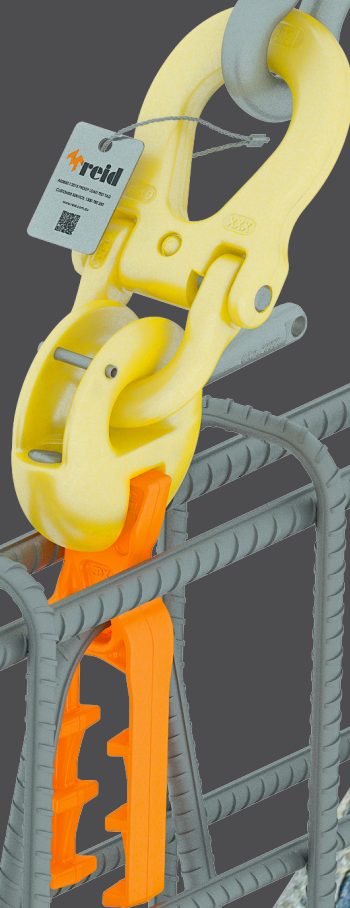

System Compliance

3Dx™ 8.5t Narrow Edge Lift Anchors comply with AS 3850.1:2024

Anchorshield™ Coating

Exclusive to Reid™. Prevents delamination from galvanic reactions, enables visual QA checks, and extends design life.
