

SPACE HEATERS

D116

Radiant Diesel Heater

Specifications

- ➔ Heat output 16.5 kW / 54,594 BTU/h
- ➔ 100% Heat efficiency
- ➔ 13 L fuel tank
- ➔ 1.67 kg/h fuel consumption
- ➔ 240 V 10 Amp plug
- ➔ Electrical power consumption: 70 W
- ➔ 13.5 kg (empty)

Standard Equipment

- ➔ Heavy duty tank
- ➔ Automatic ignition
- ➔ Carry handle
- ➔ Run time fuel gauge
- ➔ Inbuilt adjustable room thermostat
- ➔ Digital LED temperature display
- ➔ Outlet grill protection

Features	Benefits
Radiant Heat	100% efficient direct heat delivery
Safety Thermostat & Flame-out control	Shuts down when internal fault is detected
Built-in room thermostat with LED display	Efficient and consistent room temperature control whilst reducing the fuel consumption
Stainless steel combustion chamber	Allows external surface to stay cool
Auto cooling before shutting down	Longer service life
