

Tool Crib's Dry Graphite Lube is a fast drying lubricant that reduces friction and noise. It is effective under heavy pressures and continuously high temperatures. This product has an oil-free formulation that resists water and alkalis. It sprays in any position and an extension tube is provided for pinpoint application.

FEATURES & BENEFITS

- Ideal for bearings, gaskets, hinges, rubber moldings, and conveyor rollers, chains, hoists and wheels
- Resistant to water and alkalis
- Works well under high temperatures and high pressures
- Sprays in any position

PRODUCT SPECIFICATIONS

Part No. 620-1506

Size: 20 oz. Can / 14 oz. Net Wt.

Case Pack 6
