

SPRAY WISE WATER BLEND #16-5393

A specialized blend of water, solvents, propellant, and proprietary ingredients which can be used to aerosolize most latex, waterborne, and water reducible paints. Low odor and non-flammable, this is a convenient way to create small quantities of spray paint in hard to find colors. Provide added value to your customers with this unique product. A must have for paint professionals. Can be used with the Z-3000 Custom Color Machine.

Suggested Uses:

Aerosolize custom matched colors
 Quickly touch up damaged areas
 Indoor moldings or trim
 Home decorating
 Safety maintenance
 Crafts

Packaging:

UPC Code	043281010450

Container	16 fluid ounce can
Label weight	12 ounces
Shipping Classification	Limited quantity, UN 1950
Hazard Class	2.2

Properties:

Flammability	Non-Flammable
Flash point	-42C
Specific Gravity	0.69
Solids Content	7%
MIR value (unfilled)	0.23
HAPs content	0%
Shelf life (unfilled)	Guaranteed for 1 year

Filled cans should be used as soon as possible.
Stability tests show most filled cans can be stored for a maximum of 4 weeks.

Additional Information:

While Seymour of Sycamore has tested paints from many different manufacturers, compatibility with the **Water Blend** aerosols can not be guaranteed. Additional label information and/or warnings may be required if the injected product's safety information varies from that of the **Water Blend**. Filling aerosol cans is a manufacturing process, and the manufacturer is ultimately responsible for complying with hazardous labeling standards.
