

INSTRUCTIONS

1. Slide the tape under the head of the Tight Taper® (sticky side up) and press down to secure.

2. Press the tape onto the far end of the seam and push forward to release.

3. Apply pressure and pull back to smooth down the tape.

Tip: To apply tape to inside creases, fold your tape in half over the length of the Tight Taper® bar. Align it in the crease and use the orange handle to smooth and secure the tape.
