

# MAGTRACT

## Retractable Magnetic Jumper

For use on control boards, thermostats and any other HVAC controls that require connecting or bypassing.

Not intended for permanent installation

For diagnostic use only

The new MAGTRACT Retractable Magnetic Jumper is the first extendable jumper added to our line. The MAGTRACT is built for diagnostic testing only and is not intended to be a permanent installation. This is intended to be used for diagnostics on control boards, thermostats, and any other HVAC controls requiring connecting or bypassing.
