The world's gone a little soft on cold. But staying in or bundling up in fuzzy mittens is not for people like us. We aren't intimidated by arctic temps because we believe there is a better way to deal with cold. In fact, we are comfortable making others feel uncomfortable about their layers of puff and fluff. We do things differently.

WE ARE HARDWIRED TO BE WARM

Rechargeable Warmers	4

WE BELIEVE

We are meant to be outdoors — no matter how cold

Layers, like excuses, keep us from meaningful experiences

Taking a hard approach to handling the cold is the best way to warm things up

You get out of life what you put into it

WE VALUE

EXPLORATION / The freedom to get out and seek new adventures

STANDING OUT(SIDE) / Challenging the status quo to find a better way to be outdoors

COURAGE / The audacity to take risks

TAKING THE UPPER HAND / Embracing new technology to edge out old solutions

WE EXIST TO

DISRUPT THE FLUFF & GIVE THE FINGER TO COLD
