4IN1

Positive Lock

A quick-release, positive lock secures telescoping shaft in position and prevents collapsing when forceful in-line pressure is applied during use.

3 Position Combinations

The 4-in-1 Nut Driver is perfect for for pocket or pouch and offers superior performance, ease of use, and long service life. The driver shaft can be extended or retracted to produce three different end to end combinations: 1/4" and 5/16"; 3/8" and 5/16"; and 1/4" and 7/16".

SURE Fastener Engagement

Hardened Chrome Vanadium Steel Sockets offer sure fastener engagement and control. The comfortable 3-lobe handle is made of high-torque ABS plastic, and a non-slip TPR over-molded grip offers additional comfort and control on the job.
