

Unlock Your Brain's Potential with a Smarter Magnesium

LIPOSOMAL MAGTEIN® FOR COGNITIVE POWER, STRESS RESILIENCE, AND DEEP SLEEP

From Dr. Shade, Quicksilver Scientific Founder

"Liposomal Magtein combines magnesium L-threonate—the only form shown to cross the blood brain barrier—with highly purified phosphatidylcholine, a key building block for healthy cell membranes and neurological support. This powerful duo promotes cognitive performance, stress resilience, and restorative sleep. Delivered through our advanced liposomal technology, this formula ensures superior absorption where it matters most—your brain."

Product Overview & Key Benefits

Magnesium is one of the most important minerals for brain health, yet most magnesium supplements fall short. Liposomal Magtein® is different—it delivers a powerful combination of magnesium L-threonate and highly purified phosphatidylcholine (Pure PC). Pure PC is used to help replenish cell membranes, metabolize cholesterol and fat, support cognitive function, and offer liver support. This innovative formula supports cognitive function, stress management, and restful sleep—so you can perform at your best every day.

SCIENTIFICALLY PROVEN MAGNESIUM

Developed from MIT research

IT REACHES YOUR BRAIN

Magtein is the only researched magnesium to do so

SHARPER MEMORY & LEARNING

Helps fuel synaptic connections for cognitive power

STRESS RESILIENCE & DEEP SLEEP

Supports a calm nervous system for peak recovery

POWERED BY PURE PC

Delivers cellular support for brain, liver, and nutrient absorption

SUPERIOR DELIVERY

Manufactured in-house using advanced liposomal delivery technology

How It Works

Magtein® helps raise brain magnesium levels to enhance synaptic plasticity, strengthen neural communication, and support neurotransmitter balance. This drives improvements in focus, memory, and long-term cognitive performance. Pure PC supports healthy cellular repair, optimizes fat metabolism, and plays a key role in nutrient transport and brain function.

Together, Magtein® and Pure PC form a powerful neuro-supportive duo: Magtein targets the brain with precision, while Pure PC fortifies the cellular environment, ensuring nutrients are absorbed and utilized effectively.

Why Trust Us?

Quicksilver Scientific has been formulating and manufacturing highly bioavailable liposomal supplements since 2006.

- Leader in highly bioavailable liposomal delivery system technology
- Sold in 30+ Countries
- Trusted by 30,000+ practitioners/ healthcare providers
- 38 patents issued or pending
- NSF Certified, GMP onsite manufacturing

Understanding that the bioavailability and absorption of ingredients are critical prerequisites for changing health outcomes, we were one of the first supplement companies to successfully unlock the proper pharmaceutical-level chemistry for manufacturing liposomes in the nutraceutical industry.

The clear consistency of our liquid liposomes can only be achieved with nanoparticle sizing between 30-100 nanometers allowing for fast absorption of ingredients as soon as they hit your mouth.

Remember, not every liposomal supplement is created equal. Quality, chemistry, and manufacturing practices matter.

**SMARTER SCIENCE.
UNPARALLELED RESULTS.**
