

Unlock Your Brain's Potential with a Smarter Magnesium

LIPOSOMAL MAGTEIN® FOR COGNITIVE POWER, STRESS RESILIENCE, AND DEEP SLEEP

From Dr. Shade

"Magtein works by calming the overactive side of the brain, helping to shift the body out of fight-or-flight mode and into a state of balance. When the nervous system is overstimulated, stress hormones flood the body, making it difficult to focus, relax, or sleep. By supporting the brain's natural equilibrium, Magtein helps regulate neurotransmitters, reducing stress and creating the ideal environment for cognitive function, deep sleep, and overall well-being."

Product Overview & Key Benefits

Magnesium is one of the most important minerals for brain health yet most magnesium supplements fall short. Liposomal Magtein is different—it delivers a powerful combination of Magnesium L-threonate, the only magnesium that is scientifically proven to cross the blood brain barrier and highly purified phosphatidylcholine using industry-leading liposomal delivery technology for unparalleled bioavailability and absorption.¹ This innovative formula supports cognitive function, stress management, and restful sleep—so you can perform at your best every day.

SCIENTIFICALLY PROVEN MAGNESIUM

Developed from MIT research

IT REACHES YOUR BRAIN

Magtein (as magnesium L-threonate) is the only researched magnesium to do so

SHARPER MEMORY & LEARNING

Helps fuel synaptic connections for cognitive power

STRESS RESILIENCE & DEEP SLEEP

Supports a calm nervous system for peak recovery

SUPERIOR DELIVERY

Manufactured in-house using advanced liposomal delivery technology

SUGGESTED USE

Take one dose by mouth daily, preferably 5mL in the daytime and 10mL one hour before sleep.

How It Works

Magtein (magnesium L-threonate) supports brain health by efficiently crossing the blood-brain barrier to increase magnesium levels in the brain. This helps enhance synaptic plasticity, strengthen neural connections, and support neurotransmitter balance for optimal cognitive function. Magtein has been shown to improve learning, memory, and overall cognitive performance, making it beneficial for both short-term brain function and long-term mental clarity.

Why Trust Us?

Quicksilver Scientific has been formulating and manufacturing highly bioavailable liposomal supplements since 2006.

- Leader in highly bioavailable liposomal delivery system technology
- Sold in 30+ Countries
- Trusted by 30,000+ practitioners/ healthcare providers
- 38 patents issued or pending
- NSF Certified, GMP onsite manufacturing

Understanding that the bioavailability and absorption of ingredients are critical prerequisites for changing health outcomes, we were one of the first supplement companies to successfully unlock the proper pharmaceutical-level chemistry for manufacturing liposomes in the nutraceutical industry.

The clear consistency of our liquid liposomes can only be achieved with nanoparticle sizing between 20-100 nanometers allowing for fast absorption of ingredients as soon as they hit your mouth.

Remember, not every liposomal supplement is created equal. Quality, chemistry, and manufacturing practices matter.

**SMARTER SCIENCE.
UNPARALLELED RESULTS.**
